True® Desking System Specifications

Basic Worksurfaces

Worksurfaces shall define the shape of the workstation and provide support for overhead storage, hanging pedestals, electrical componentry, and privacy screens.

Rectangular Worksurfaces

Laminated worksurfaces shall be constructed from 1-1/8" medium density fiberboard with a .030 high-pressure laminate surface or veneer and a .030 phenolic backing sheet with a choice of three edge styles: PVC, PVC with knife edge along front, or 3/8" wood. PVC edge shall be available in multiple colors. The knife edge shall only be applied to the front edge of the worksurface and extend 2" beyond the desk frame. The wood edge shall be constructed from natural red oak and be available in a clear finish (standard) or in a maple wood band with additional stains. Worksurfaces shall be available in 24", 30", 36", 42", 48", 54", 60", 66", and 72" widths, 24" and 30" depths, and 29" height.

Rectangular worksurfaces up to 60" wide shall include two triangular worksurface grommets and covers, located in the back corners of each worksurface. 66" and 72" wide worksurfaces shall have an optional third triangular worksurface grommet and cover located near the back center of the desk. Grommets shall be molded from polycarbonate and available in colors or translucent. Worksurfaces that are 60", 66", and 72" wide shall have an integrated steel reinforcement to allow adequate support for load bearing. All worksurfaces shall have pre-drilled holes for attachment to the desk frame.

Two leg supports shall support the worksurface and be formed of 16-gauge steel, overall dimensions shall be 6.00 x 6.00 x 27.25, with 16-gauge internal reinforcements resistance welded for additional strength. The leg assemblies shall be attached to the underside of the worksurface from above by use of threaded inserts. A steel leg cover on inside of desk shall be standard and removable without tools. A glide shall be attached to the bottom of the leg for up to 1" of adjustability. Two 3.25" x 2.25" grommets and covers molded from polycarbonate shall be standard on the top of each leg side.

The modesty panel beam shall be formed of 18-gauge steel, overall dimensions are 3.00 x 9.00 x length determined by size of worksurface. The modesty panel beam shall be attached to leg supports and the underside of the worksurface, will provide support for the worksurface and allow electrical and data cable to be run along the width of the desk. Plastic worksurface spacers shall provide a 1/4" stand off distance between the worksurface and modesty panel beam and snap into place for easier assembly.

An optional lower modesty panel shall be

formed of 18-gauge steel, overall dimensions are 1.00 x 18.00 x length determined by size of worksurface. The lower modesty panel shall be attached to the leg supports and provide full enclosure of the desk back from floor to the modesty panel beam.

Two end panels shall support the worksurface and be formed of 18-gauge steel with an 18-gauge steel reinforcement resistance welded for strength. The end panel shall have a honeycomb core for additional strength and noise reduction. Overall dimensions shall be 1.25 x 27.00 x depth determined by worksurface size or configuration. Standard depths shall be 9" for transitional depth, 18" for 24" worksurfaces and 24" for 30 worksurfaces. End panel assembly shall be attached to the underside of the worksurface and leg assembly. Plastic worksurface spacers shall provide a 1/4" stand off distance between the worksurface and end panel and snap into place for easier assembly. A glide shall be attached to the bottom of the end panel for up to 1" of adjustability.

All steel desk components shall be powder-coated or otherwise finished.

Rectangular Reduction Worksurface

Rectangular reduction worksurfaces shall have the same basic construction as the rectangular worksurfaces. Worksurfaces shall have two curving arcs along the front edge that transition from a depth of 30" on one end and 24" on the opposite end.

Bow Front Worksurface

Bow front worksurfaces shall have the same basic construction as the rectangular worksurfaces. These worksurfaces shall have a depth of 30" or 36" with a radius edge that extends 6" from the desk support structure on the visitor side. Worksurfaces shall only be available in 60", 66", and 72" widths, without the center grommet and cover.

Corner Worksurface

Corner worksurfaces shall have the same basic construction as the rectangular worksurfaces with an additional leg support, modesty panel beam, and optional lower modesty panel. Depths of 24" and 30" and widths of 42" and 48" shall be standard. Worksurfaces shall have three grommets and covers, one per corner, located in the back corners of each worksurface as standard.

P-Shaped and Piano Shaped Worksurfaces

P-shaped and piano shaped worksurfaces shall have the same basic construction as the rectangular worksurfaces with an additional round support leg and modesty panel. The round support leg shall be attached towards the rounded front end of the worksurface and be constructed from 4" diameter, 14-gauge steel, and be fitted with a glide for up to 1" of adjustability. The modesty panel shall be constructed from 18-gauge steel and extend 9" from the underside of the

worksurface. Worksurfaces shall be available in 60", 66" and 72" depths and 48" widths.

D-Shaped Worksurfaces

D-shaped worksurfaces shall have the same basic construction as the rectangular worksurfaces with an additional round support leg and modesty panel. The round support leg shall be attached towards the rounded end of the worksurface and be constructed from 4" diameter, 14-gauge steel, and be fitted with a glide for up to 1" of adjustability. Worksurfaces shall be available in 24", 30" or 36" widths and 48", 54", 60", 66" and 72" depths.

Round Add-On Worksurface

Round add-on worksurfaces shall be available with the same edge treatments as the rectangular worksurfaces. They shall be available in 36" diameter with a 24" flat and 42" diameter with a 30" flat. A round support leg shall support the worksurface and be constructed from 4" diameter, 14-gauge steel, and be fitted with a glide for 1" of adjustability. Two steel splice plates and hardware shall be included to attach the round add on worksurface to a rectangular worksurface.

Half Round and Quarter Round Add-On Worksurfaces

Half round and quarter round add-on worksurfaces shall be available with the same edge treatments as the rectangular worksurfaces. They shall be available in 48" diameter and 60" diameter. A round support leg shall support the worksurface and be constructed from 4" diameter, 14-gauge steel, and be fitted with a glide for 1" of adjustability. Four steel splice plates and hardware shall be included to attach the half round add on worksurface to two back to back rectangular worksurfaces. Four steel splice plates and hardware shall be included to attach the quarter round add on worksurface to two rectangular worksurfaces that are perpendicular to each other.

Transaction Worksurface

Transaction worksurfaces shall be available with the same edge treatments as the rectangular worksurfaces. Worksurfaces shall attach via two support stanchions to rectangular worksurfaces and three support stanchions to corner worksurfaces. The worksurfaces shall be available in 16" depth with a 4" overhang in overall sizes that match the base rectangular and corner workstations. Worksurfaces shall be available in 31" wheelchair accessible height or 42" stand-up height.

Backpack Wire Trough Component Kit

Backpack wire trough components shall allow for lay-in wiring along the back of workstation. The kit shall consist of a pair of trough mounting brackets attached to the leg supports and constructed from 16-gauge steel, three 1.25" x .92" wire troughs con-

structed from 18-gauge steel that span the width of a desk, and a cover constructed from 18-gauge steel capable of being opened without the use of any tools. Applicable end trim, corner, and splice components shall also be available for the cover.

Electrical

Power shall be supplied through a UL listed 10-wire system available in two different configurations that are not interchangeable: 6 hot wires, 2 neutral wires, and 2 ground wires or 4 hot wires, 4 neutral wires, and 2 ground wires. The system shall have a rated capacity of 120 VAC @ 20 amps.

A rigid one-piece wireway shall be attached to the inside of the modesty panel beam by two 16-gauge steel brackets and hardware and be covered by an 18-gauge steel cover. The wireway design shall allow for easy connection of the wireway of one desk to another through the use of a jumper. All desks 30" and wider shall be ready to accept electrical components.

The receptacles for the system shall be snap fit into the wireways and be rated for 15 amps.

The electrical system shall allow for a method of passing power from one powered desk through the modesty panel beam of a non-powered desk and connected to the wireway of a third desk. This power pass through shall attach with snap fit connections.

The electrical system shall allow power to infeed from the top of the desk through the triangular grommet in the worksurface. The top infeed kit shall include 12' of flexible metal conduit with a snap fit attachment to the wireway on one end and open whip on the other, a 7' or 10' extruded aluminum power pole and cover, and ceiling trim. The interior of the power pole shall be divided into two cavities for power and communication cable management.

The electrical system shall allow for power to infeed from the base of the desk through the lower leg grommet or leg cover. The base infeed kit shall include 6' of plastic covered flexible conduit that transitions into flexible metal conduit with a snap fit attachment to the wireway on one end and open whip on the other. A relocatable power tap (RPT) shall provide above worksurface power to the support stanchions from an installed 10-wire electrical system or use of the building outlets. Two RPT's, each containing two 15 amp outlets, shall be mountable per stanchion. Cord lengths shall be available in 36" or 96".

A steel bracket shall be available to attach to the underside of the modesty panel beam near the worksurface. It shall have a 1.38" x 2.70" opening to accept several different manufacturers data faceplates and the RPT.

Pedestal Storage

Pedestal storage for True® shall be provided by KI's 700 Series®, 700 Series® Curve, and E-Series® Pedestals. 3 pedestals shall be available in 2 depths, 17-5/8" that may be used with any depth worksurface, 21- 5/8" for maximum storage under a 30" worksurface. Multiple drawer combinations shall be available.

The 12" file drawer sizes shall have full extension slide arm suspensions for full access to storage space. The 3" pencil drawers and 6" box drawers shall have 3/4" extension, steel ball-bearing suspension. Locks shall be included in each pedestal. Specific keying combinations shall be available. See Key Options.

Mobile Pedestals

Mobile pedestals shall have a finished top and 4 twin wheel hooded casters. Front casters shall be locking and back casters shall be non-locking. A counterbalance weight shall be included with each unit.

Freestanding Pedestals

Freestanding pedestals shall have a finished top and 4 adjustable glides. They shall be placed under a worksurface or anywhere else in the office. A counterbalance is optional.

Center Drawer

The center drawer shall mount below a 24" or 30" deep worksurface which has an 18" wide clearance. The drawer pan shall be constructed of 22-gauge steel with a hem along the front edge for safety and strength. A deep rib shall form a pencil tray and provide additional strength and a double flange across the back shall prevent spillage of contents. The drawer sides shall be 20-gauge with a hem along the top edge for safety. The drawer shall run on a pair of full extension, ball-bearing suspensions and shall be available with or without a lock, keyed randomly as standard. Field drilling for installation shall be necessary.

Sliding Keyboard Drawer

Sliding keyboard drawer shall attach to the underside of a worksurface. The keyboard drawer shall be molded plastic mounted to steel ball bearing slides with installed height adjustments at 3", 3-1/2" and 4" below the worksurface. Accommodates keyboards up to 9" x 22" and has a molded palm rest.

Sliding Keyboard Drawer with Mouse Tray

Sliding keyboard drawer with mouse tray shall attach to the underside of a worksurface. The keyboard drawer shall be molded plastic mounted to steel ball bearing slides with installed height adjustments at 3", 3-1/2" and 4" below the worksurface. Accommodates keyboards up to 9" x 22" and has a molded palm rest. The non-handed mouse tray shall extend to the left or right and provide a 9" wide by 8-1/2" deep surface.

Fully Adjustable Keyboard Tray

Fully adjustable keyboard trays shall attach to the underside of a worksurface. They shall feature a 5-1/2" vertical adjustment, 359° swivel and a tilt range of 10° positive and 15° negative. The keyboard tray shall slide back to store below the worksurface. Accommodates keyboards up to 9" by 22".

Fully Adjustable Keyboard Tray with Mouse Tray

Fully adjustable keyboard trays shall attach to the underside of a worksurface. They shall feature a 5-1/2" vertical adjustment, 359° swivel and a tilt range of 10° positive and 15° negative. The keyboard tray shall slide back to store below the worksurface. The surface accommodates keyboards up to 9" by 22" and the non-handed mouse tray extends 9" to the left or right.

CPU Sling

Vertical CPU sling that supports and stores the CPU beneath the worksurface available with a 360° swivel and 5-1/2" travel range. The CPU sling is constructed of a steel mounting plate with 17-3/4" track which attaches to the underside of the worksurface. Front and back bumpers are included to prevent over travel. CPU sling is held by an adjustable strap to accommodate most computers and has a positive locking clamp.

Adjustable/Securable CPU Holder

The CPU holder shall accommodate a range of CPUs from 2" to 10-1/2" thick and 11" to 21" tall. Optional security kit available that prevents tampering or removal of the CPU.

Privacy Screens

Privacy screens shall be available to provide sit down or stand up privacy within the True® workstation. Screens shall be 3/4" or 1" thick, 18-1/4", 21" or 38" high and available in 24", 30", 36", 42", 48", 54", 60", 66" and 72" widths to fit all worksurfaces. The 66" and 72" widths shall consist of a pair of screens (1) 30" plus (1) 36" screen for 66" applications and (2) 36" screens for 72" applications. The screens shall include mounting brackets for attachment to either the overhead supports, the underside of the worksurface, the top of the worksurface, or with a combination of attachment to an overhead support and a worksurface top.

Two privacy screen construction methods shall be available: two 1/2" industrial insulation boards, covered with fabric and glued together or an exposed, powder-coated aluminum frame. The exposed frame construction shall allow for different core materials to be inserted.

Overhead Support Stanchions

The overhead support stanchions shall be formed of 16-gauge steel, with overall dimensions of 6.00" x 6.00" x 19.50". A reinforcement plate constructed of 16-gauge steel shall be welded in place to provide additional strength and have 4 cutouts to

accommodate either commercially available data plates or two RPT's. Support stanchions shall be designed to hinge open to allow access to the inside of the overhead support stanchions. A flexible rubber trim piece shall allow power or data cables to be run from the worksurface into the overhead support stanchions with the covers closed.

Overhead Storage

Overhead storage shall consist of the Balance® overhead and Universal overhead and shelves. Overhead storage shall attach to worksurface with two or three overhead support stanchions, depending on size. 24", 30", 36", 42", 48", 54", 60", 66" and 72" sizes shall be available. 66" overheads shall consist of a 30" and 36" overhead combination. 72" overheads shall consist of a pair of 36" overheads.

Shelf dividers shall be power-coated steel with installation and removal accomplished without the use of tools or fasteners.

Universal overheads and shelves shall be 17" high and shall have 19-1/2" clearance between the worksurface and the bottom of shelf. Overhead doors shall be available with painted steel, fabric, laminate, or veneer, with a PVC extrusion handle. Locks shall be randomly assigned or keyed per customer requests.

The end panels shall be constructed of 14-gauge steel and have self-locking mounting tabs formed into the back edge. The shelf, back, and top shall be constructed from 18-gauge steel. The front edge of the shelf shall be a PVC extrusion that also provides space for a concealed flush mount task light.

Balance® overheads shall be 17" high and have 19-1/2" clearance between the worksurface and the bottom of shelf. The upper door shall be available in colored or translucent extruded rigid PVC with spatter-coat finish, fabric, or laminate applied. The overall door thickness shall be 3/8". The lower door shall be an aluminum extrusion and be ergonomic in design. A center lock mechanism shall be utilized between the upper and lower doors for security.

The overhead doors shall be effortlessly operated from either a seated or standing position through use of the upper or lower door. The upper door and lower door shall be synchronized in motion through the use of two 10-gauge linkages. The doors shall be assisted with two extension springs and require less than 5 pounds of force to operate. The upper door shall open over the outside of the case.

Task Lights

Task lights shall be offered in one standard level of efficiency and cost. The standard light shall have a magnetic high power ballast with rapid start, cool white T-8 fluorescent lamp. Task lights shall attach to the

underside of the shelf on overhead cabinets.

Paper Management System

The paper management system shall address the storage and movement of files, binders, and documents. Components shall be available with integrated hooks for attachment to the work bar.

The paper management system shall include the following components: Tool Rail, Paper Tray, Diagonal Storage Unit, Vertical Storage Unit, Hanging File Folder Holder, Telephone Caddy, CD Holder, Accessory Tray, and a Pencil Cup.

Key Options

There are various key options available depending on the component model. The key alike option (KA) allows multiple components of a workstation to be keyed alike. The key standard option (KS) allows each component to have its own randomly selected key number shipped with the individual component. The No lock core (NLC) provides more flexibility in keying workstations alike. All locks and keys for the individual components specified with no lock core will be packaged separately from the components. The location of the lock core and corresponding numbered key will be determined upon installation.

ANSI/BIFMA

True® desking shall meet or exceed the required ANSI/BIFMA X5.5-1998 desk systems test.

Quality

All True® desking components shall originate from ISO 9000, ISO 9001 or ISO 9002 registered facilities.

UL Listed

True® desks shall be listed to applicable UL standards and requirements by Underwriters Laboratories Inc. Two of the standards used to evaluate True® desks are UL 1286 Office Furnishing and UL 723 Standard Test for Surface Burning Characteristics of Building Materials.

TRUE

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note: • The indicates that a choice is required.
• The absence of the indicates that no choice is required.

HOW TO BUILD A MODEL NUMBER

A Select basic model.

B Select edge style.
KN is not recommended in L-Shaped configurations.

74P = 74P edge
KN = Knife Edge
WL = Wood Edge Laminate
VN = Wood Edge Veneer

With 74P, KN and WL edges, select from laminates for surface finish (Lxx). For edge color, 74P and KN, select from Exx colors and for WL, select Mxx or VOK colors. For VN, select from Mxx or VOK for surface finish and do not select an edge color.

C Select end panel.

B = Two transitional end panels
L = Left transitional end panel;
add \$42
R = Right transitional end panel;

add \$42

S = Two full end panels; add \$84

D Select desk center grommet option.

NCG = No center grommet

YCG = Yes center grommet

"YCG" option only available on 66" and 72" wide desks. "YCG" is needed to mount overheads, transaction surfaces or stanchion mounted privacy screens.

E Select leg and grommet color.

Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes binder.

F Select surface finish.

Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes binder. Surface finish offerings are based on edge style selections.

G Select edge color.

Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes binder. Edge color offerings are based on edge style selections.

H Select desk color.

Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes binder.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
 Nevamar - LN/supplier's color pattern code
 Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern.

Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

Square Shoe Desk with Partial Modesty Panel/Full Modesty Panel

- Full modesty panel attached on long (60", 66", or 72") side
- Consists of top, three legs, two modesty panels, one filler panel (full modesty panel), two end panels (optional transitional size), ganging plates, and all required assembly hardware
- Each leg has two cable access grommet locations
- Top has three cable access grommets above the legs (66" and 72" wide have an optional fourth middle grommet used for mounting stanchions and not intended for routing cables)
- Top grommets allow for attachment of overhead storage units
- Modesty panel allows for optional 10-wire electrical system (see Electrical section)
- Pricing is for two transitional end panels, see "HOW TO BUILD A MODEL NUMBER" below for more options

HOW TO ORDER

Indicate the following information on order form:

1. Quantity of each item.
2. Model number, including options. See "How To Build a Model Number".
3. Any special service required.

Note: • The indicates that a choice is required.
 • The absence of the indicates that no choice is required.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
- B** Select edge style.
 Knife edge (KN) adds 2" to the depth of the desk on the user's side.
74P = 74P edge
KN = Knife Edge
WL = Wood Edge Laminate
VN = Wood Edge Veneer
 With 74P, KN and WL edges, select from laminates for surface finish (Lxx). For edge color, 74P and KN, select from Exx colors and for WL, select Mxx or VOK colors. For VN, select from Mxx or VOK for surface finish and donot select an edge color.
- C** Select transition end panels.
B = Two transitional end panels
L = Left transitional end panel; add \$42
R = Right transitional end panel;

- add \$42
S = Two full end panels; add \$84
- D** Select desk center grommet option.
NCG = No center grommet
YCG = Yes center grommet
 "YCG" option only available on 66" and 72" wide desks. "YCG" is needed to mount overheads, transaction surfaces or stanchion mounted privacy screens.
- E** Select grommet color.
 Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes binder.
- F** Select surface finish.
 Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes binder. Surface finish offerings are based on edge style selections.

- G** Select edge color.
 Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes binder. Edge color offerings are based on edge style selections.
- H** Select desk color.
 Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes binder.

HOW TO ORDER

Indicate the following information on order form:

1. Quantity of each item.
2. Model number, including options. See "How To Build a Model Number".
3. Any special service required.

- Note:
- The indicates that a choice is required.
 - The absence of the indicates that no choice is required.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
- B** Select edge style.
- | | |
|------------|----------------------|
| 74P | = 74P edge |
| WL | = Wood Edge Laminate |
| VN | = Wood Edge Veneer |
- C** Select grommet color.
Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes binder.
- D** Select surface finish.
Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes binder. Surface finish offerings are based on edge style selections.
With PVC edge (74P) and wood edge laminate (WL), select from laminates.
With wood edge veneer (VN), select from veneers.

- E** Select edge color.
Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes binder. Edge color offerings are based on edge style selections.
With PVC edge (74P), select from PVC colors. With wood edge veneer (VN), no edge color selection required. With wood edge laminate (WL), select wood edge colors.
- F** Select desk color.
Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes binder.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
Nevamar - LN/supplier's color pattern code
Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern.
Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note: • The indicates that a choice is required.
• The absence of the indicates that no choice is required.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
- B** Select edge style.
Knife edge (KN) adds 2" to the depth of the desk on the user's side.
74P = 74P edge
KN = Knife Edge
WL = Wood Edge Laminate
VN = Wood Edge Veneer
- C** Select transition end panels.
B = Two transitional end panels
- D** Select grommet color.
Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes binder.
- E** Select surface finish.
Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes

binder. Surface finish offerings are based on edge style selections.
With PVC edge (74P), knife edge (KN), and wood edge laminate (WL), select from laminates. With wood edge veneer (VN), select from veneers.

- F** Select edge color.
Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes binder. Edge color offerings are based on edge style selections.
With PVC edge (74P) and knife edge (KN), select from PVC/knife colors. With wood edge veneer (VN), no edge color selection required. With wood edge laminate (WL), select wood edge colors.

- G** Select desk color.
Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes binder.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
Nevamar - LN/supplier's color pattern code
Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern.
Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note: • The indicates that a choice is required.
• The absence of the indicates that no choice is required.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
- B** Select edge style.
Knife edge (KN) adds 2" to the depth of the desk on the user's side.
74P = 74P edge
KN = Knife Edge
WL = Wood Edge Laminate
VN = Wood Edge Veneer
- C** Select transition end panels.
B = Two transitional end panels
- D** Select grommet color.
Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes binder.
- E** Select surface finish.
Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes

binder. Surface finish offerings are based on edge style selections.
With PVC edge (74P), knife edge (KN), and wood edge laminate (WL), select from laminates. With wood edge veneer (VN), select from veneers.

- F** Select edge color.
Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes binder. Edge color offerings are based on edge style selections.
With PVC edge (74P) and knife edge (KN), select from PVC/knife colors. With wood edge veneer (VN), no edge color selection required. With wood edge laminate (WL), select wood edge colors.

- G** Select desk color.
Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes binder.

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note: • The indicates that a choice is required.
 • The absence of the indicates that no choice is required.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
- B** Select edge style.
 Knife edge (KN) adds 2" to the depth of the worksurface.
74P = 74P edge
KN = Knife Edge
WL = Wood Edge Laminate
VN = Wood Edge Veneer
- C** Select surface finish.
 Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes binder. Surface finish offerings are based on edge style selections.
 With PVC edge (74P), knife edge (KN), and wood edge laminate (WL), select from laminates. With wood edge veneer (VN), select from veneers.

- D** Select edge color.
 Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes binder. Edge color offerings are based on edge style selections.
 With PVC edge (74P) and knife edge (KN), select from PVC/knife colors. With wood edge veneer (VN), no edge color selection required. With wood edge laminate (WL), select wood edge colors.
- E** Select desk color.
 Refer to color addendum at ki.com or in KI Price List or KI Fabrics & Finishes binder.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
 Nevamar - LN/supplier's color pattern code
 Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
Nevamar - LN/supplier's color pattern code
Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern.

Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
Nevamar - LN/supplier's color pattern code
Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern.

Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

**You make the rules.
We make the rest.®**

Of course KI solutions work better for you. They're made for you. No one pays more attention to customer needs than we do. We don't design our furniture to win awards (even though it does). We don't rely on one-size-fits-all solutions (even though they would make our life easier). We find out what the market needs. And, we make it. The same applies to our service, distribution...everything we do. KI solutions work, because we're working for you.
