**You make the rules.  
We make the rest.®**

Of course KI solutions work better for you. They're made for you. No one pays more attention to customer needs than we do. We don't design our furniture to win awards (even though it does). We don't rely on one-size-fits-all solutions (even though they would make our life easier). We find out what you need. And, we make it. The same applies to our service, distribution channels ... everything we do. It's all built around knowing what you want and giving you the choice. KI solutions work, because we're working for you.
