MAGNACARE Specifications

The MAGNACARE product line offers a variety of configurations for **Patient Rooms, Nursing Staff, Medical Storage, Administrative Offices** and **Conference and Meeting areas**. MAGNACARE is offered in WoodPlus or WoodPlus² laminate cases and faces with top choices of WoodPlus / ColorPlus with matching 3mm PVC edges, WoodPlus² / ColorPlus² with seamless integrated edge, or Solid Surface materials.

SPECIFICATION HIGHLIGHTS

All exposed laminate surfaces shall be Magna WoodPlus or WoodPlus² laminate. Standard finishes include wood grain patterns and solid colors as described in the finishes section.

Tops

On MC1 models, tops are offset 3" from cabinet sub-tops with round tubular risers. Riser tubes are available in Black or Silver powder coat finish. On MC2 models, tops are flush mounted to the cabinet sub-tops. Three different top materials are available: 1-1/8" WoodPlus with matching or complimentary 1/8" radius WoodPlus PVC edge, 1" WoodPlus² or ColorPlus² with seamless formed edges and 1" seamless Solid Surface. On side stands and dressers, WoodPlus² and Solid Surface tops include full perimeter groove for containing spills. WoodPlus / ColorPlus top construction consists of 45 LB industrial board core with standard high pressure laminate and balancing plastic backer sheet.

WoodPlus² top construction consists of a 48 LB MDF core surfaced with rigid thermoformed polymer-based decorative composite sheet and a balancing backer sheet.

Top Grain Direction

WoodPlus or WoodPlus² tops are standard with grain running the side to side S2S.

Edges

WoodPlus / ColorPlus tops come with 3mm PVC radiused edge, all other surfaces have matching PVC tape edge. WoodPlus² / ColorPlus² horizontal and vertical surfaces come with rounded, soft edges that are a seamless and integrated part of the surface. Solid Surface tops have an edge that is seamless and integral.

Cabinets

Cabinet cases are finished on all exposed surfaces. Cabinet back inset between the case tops and sides. All doors, cabinet case sides and back are 3/4" thick three ply balanced construction. Doors and cabinet sides and backs are constructed with vertical grain patterns or non-directional ColorPlus² finish.

Three cabinet base styles are available: 4-1/2" high plinth base, 4-1/2" high round tubular steel leg or 4" casters. Plinth and Leg base come with threaded stem adjustable glides.

Drawers

Finishes

WoodPlus / ColorPlus components are manufactured using 45 LB industrial board core with thermofused surfaces on both sides.

The result is a seamless component with formed edges and exceptional wear and appearance characteristics. For current Solid Surface finishes please contact Customer Service.
