GENERAL INFORMATION

Order Information

Mail or fax all orders or inquires to:

The Taylor Desk Company
11020 Santa Fe Avenue
Lynwood, CA 90262
Phone: 310-631-6727
Fax: 310-604-3338
E-Mail: info@thetaylorcompanies.com

All orders are subject to acceptance by The Taylor Desk Company. Orders will not be released for production until all information is complete. Orders must include the following information:

- Quantity
- Model Number
- Wood Finish
- Hardware Style & Finish
- Left or right sitting, where applicable
- Grommet locations, where applicable
- Diagram for multi-component configurations & custom wire management

Pricing and specification information for the seating shown in the Paull Group brochure can be found in the Taylor Chair Price List. Please contact Customer Service for additional information.

Phone and E-Mail Orders

Taylor Desk accepts phone and e-mail orders; however, a mailed or faxed purchase order marked "confirming" must follow immediately. Duplication of an order not marked "confirming" is the responsibility of the customer.

GSA Contract

The Paull Group is on GSA Contract (#GS-28F-0047J). Please contact Customer Service or visit our website (www.thetaylorcompanies.com) for more details.

Special Orders

The Paull Group is among the most flexible casegoods series in the industry in accommodating specialized product requirements. Should a particular need arise requiring size modification or customization of product, please contact Customer Service for a quotation. A non-refundable, minimum deposit of 50% of the quoted price is required on all special orders. Orders requiring special materials or construction are not subject to cancellation and Taylor Desk will not accept return of such orders. Lead time for special orders will be quoted at the time the order is received.

Terms and Credit Policy

Terms are 2% 10 days, net 30 days. All prices are list prices, uncartoned (blanket wrap), F.O.B. Lynwood, CA. Freight charges are not included (see Taylor Freight Program, page 3). Prices are subject to change without notice and all orders are accepted subject to prices prevailing at time of shipment. Distribution of this price list does not constitute an offer to sell. New customers are required to complete and return a credit application in full and make a minimum deposit of 50% of their first order, unless other arrangements have been made.

Past due accounts of 10 days or more are subject to being placed on credit hold until satisfactory arrangements are made. Any account that has an unpaid invoice that is 30 days past due will be placed for collection. Notification will be sent at such time. The customer will be responsible for all collection costs in the event their account must be placed for collection.

Acknowledgements

Orders cannot be acknowledged until complete information is received (see Order Information above). Each order will be entered, scheduled into production, and invoiced based upon information in the acknowledgement. It is the customer's responsibility to check acknowledgements for accuracy. Immediately notify Taylor Desk in writing of any discrepancies. **The printed acknowledgement is the final agreement between Taylor Desk and the customer, superseding all previous communications regarding the order.**

Changes and Cancellations

Orders are not subject to change or cancellation once production has begun. Order revisions may be subject to schedule and price adjustments. The customer will be liable for the full price of any order which is cancelled or changed once production has begun.

Routing

We will ship via customer's carrier specified, where practical. If no instructions are received, we will ship via whatever carrier, in our opinion, is best. For your convenience, the Taylor Freight Program is an available routing option whereby a guaranteed freight cost will be added at the time of your invoice from Taylor Desk (see page 3).

Storage

Taylor Desk has made no provision for storage. If the customer is unable to accept delivery of furniture as scheduled, the customer has the sole responsibility to provide new shipping instructions and all costs related to the delay and/or storage of the product are the responsibility of the customer. **Taylor Desk is not responsible for the condition of product that is stored or installed in an environment where temperature and humidity are not controlled.**

Installation and Maintenance

Proper installation and maintenance of Taylor Desk casegoods is the responsibility of the customer. Improperly installed units can result in permanent damage and is not covered under product warranty.

Electrical Components

Electrical components are U.L. listed. Compliance with electrical and building codes are the sole responsibility of the customer.

Designs

Designs in our catalog and price list are the property of Taylor Desk. Taylor Desk reserves the exclusive right to produce and market them. Some of the designs in our catalog and price list have design patents pending. Anyone who duplicates or reproduces them will be liable for patent infringement. Taylor Desk retains the right to change, at any time, materials or construction methods which, in our opinion, will improve our product. All measurements in the catalog and price list are approximate.

10 Year Limited Warranty

The Taylor Desk Company (Taylor) warrants to the first purchaser for use that its merchandise is free of defects in material and workmanship for a period of ten (10) years from date of invoice, provided that such merchandise is listed in Taylor's current price list at the time of the claim. Taylor's obligation under this warranty is limited to repair or replacement, at its option, and such repair or replacement shall be the only remedy. Because wood is a natural product, variations in grain and finish color may occur. Therefore, Taylor cannot guarantee the matching of grain or color. Taylor is not responsible for damage due to transportation, improper handling, alteration, abuse, negligence, or damage that occurs during storage. Taylor shall not be liable for any incidental or consequential damages including, but not limited to, any expenses associated with the removal or installation of any defective merchandise covered by this warranty. Taylor makes no implied warranty of merchantability or fitness for any particular purpose. **ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, ARE EXCLUDED.**

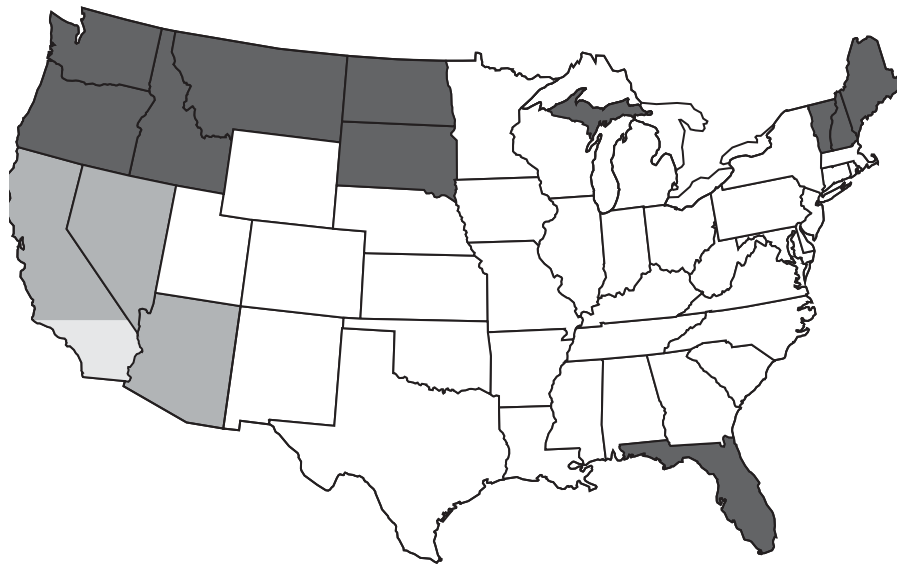

Glass Tops

It is not recommended to place glass tops on wood tops because they create a moisture trap that could damage the wood surface. **The use of glass tops may void the product warranty should damage occur.**

Manufacturing Defects

Claims of manufacturing defects will not be entertained without prior inspection by a Taylor representative. Unauthorized deduction in payment of invoices will not be allowed without prior factory approval.

TAYLOR DESK FREIGHT PROGRAM

- ZONE 1:**
4% of the net order or \$240 net,
whichever is greater
- ZONE 2:**
6% of the net order or \$360 net,
whichever is greater
- ZONE 3:**
9% of the net order or \$540 net,
whichever is greater
- ZONE 4:**
10% of the net order or \$600 net,
whichever is greater

General Information

Taylor Desk offers a guaranteed freight rate through the optional Taylor Freight Program. All orders must be marked "**Taylor Freight Program**" and include accurate freight charges as a separate line item (see above). Invoicing for freight charges using this program will appear on the invoice for the order. This charge applies for dock-to-dock with "driver no touch" delivery to one destination only and does not include unloading or inside delivery. Taylor Desk reserves the right to select the carrier, and in most cases, will ship blanket wrapped.

The delivery location must be equipped with a dock and be fully accessible to a 53' tractor-trailer. The customer must provide all labor necessary to unload the shipment. **Customer must make certain that entrances, elevators, etc. are adequate for large units and/or tables.** Most items (except conference tables, workwalls, L-shape and U-shape desk configurations, etc.) are completely set up prior to shipping. Please contact Customer Service if desks need to be shipped partially assembled to accommodate an installation in close quarters.

Shipping Schedule

Taylor Desk is committed to the most prompt shipment possible of all its products. Taylor Desk assigns orders to a projected ship date for production purposes. Actual ship date may vary 3-5 working days for freight consolidation. Taylor Desk is not liable for failure to ship by the acknowledged shipping date or any other date. Taylor Desk is not liable for a delay or failure in shipment or performance if the delay or failure is caused by an act or omission of the customer; civil disturbances; dispute with or among labor unions; acts of God; delays in transportation; or other similar causes that are not within Taylor Desk's reasonable control.

Call Before Delivery

Since carriers charge back for call before delivery requests, an additional \$25 net charge will be added to orders that request a call before delivery.

Additional Charges

Rates are based on dock-to-dock "driver no touch" deliveries made Monday through Friday, 8 a.m. until 5:00 p.m. The dealer warehouse must also be specified on the order. Delivery direct to a jobsite, as well as date and time specific deliveries, may be arranged. In most cases, additional freight charges will incur. Contact Customer Service for quote on your delivery requirements. Any charges arising from failure to meet a shipment, rerouting while in transit, or carrier storage charges are NOT included in the pricing shown. Charges resulting from late deliveries beyond our control are not the responsibility of Taylor Desk.

Cartoning

If cartoning is requested, add 20% of the net price to each item as a separate charge on the order. There is no additional cartoning charge for occasional tables.

Freight Claims and Damaged Shipments

We take great care in the handling of our finished product. All Taylor Desk products are carefully inspected, protected with well-engineered packaging, and expertly loaded from our dock. All shipments are delivered to the carrier in good condition and our liability ceases at that time. **Therefore, we strongly recommend that all furniture be inspected immediately upon arrival.** If a shipment is received damaged, whether such damage is concealed or obvious, it is the purchaser's responsibility to properly note the damage. Do not refuse merchandise damaged in transit, as Taylor is not responsible for damage to goods that occur in transit or storage. If damage does occur, immediately follow these steps to expedite the claims process:

For Visible Damage:

1. Note damage on bill of lading (delivery receipt) and have driver sign.
2. Note damage on packing list.
3. Hold all packaging materials.
4. Contact Taylor Desk Customer Service to request Damage Notification Form.
5. Complete Damage Notification Form and return via fax to Taylor Desk within 5 days.

For Concealed Damage:

1. Open package and inspect contents within 5 days of receipt. (Carrier liability ceases after 5 days and the carrier will not be responsible for concealed damages.)
2. Follow steps 2-5 above.

If an item is determined to be field-repairable, please also submit a quotation for the repairs. **If repairs are made locally, repair charges will not be accepted unless approved in advance by Taylor Desk.**

Returns

No furniture may be returned for credit, inspection, or repair without first obtaining factory approval and a return authorization number. In the event of a credit by agreement, a handling charge of 30% will be deducted from the credit issued. **No furniture will be accepted unless a return authorization number is referenced and return transportation charges are prepaid. All furniture being returned must be properly packaged in its original or comparable replacement packaging to ensure protection of the product during handling and transportation.**

PRODUCT INFORMATION

Veneers

Hand selected, slip-matched Maple veneer is meticulously prepared and laid up onto the highest quality substrate in Taylor Desk's own Panel Department. All panels are produced using three-ply balanced construction to discourage warping.

Tops and Modesty Panels

All Paull Group tops are 1 1/4" thick, produced using three-ply balanced construction with solid Maple surrounding the top and shaped into one of eleven edge details. All top sizes are approximations. The Paull Group offers three distinct modesty styles: Recessed, Flush, and Step Front. All desk modesties and credenza backs are 3/4" thick, balanced construction, full height panels with meticulously book matched veneers.

Custom Capabilities

Taylor Desk has the capabilities to fulfill custom requirements for Paull Group. Please submit your written requirements and/or drawing to our Customer Service Department for a quotation.

Laminate Worksurfaces

As part of Taylor Desk's custom capabilities, HPL-laminate worksurfaces are available at a 10% upcharge, with a \$100 net minimum (a higher upcharge may apply to specially priced laminates). Purchase orders with a laminate option must include: **Manufacturer's Name, Laminate Name, and Number.**

Laminate tops will include a lumber edge in any standard edge detail. Taylor Desk will **not** automatically match the wood finish to the laminate selection. If a wood finish match is required, it must be specified and may require an additional special finish upcharge. Taylor Desk reserves the right to decline a laminate that may not be suitable for the application. Taylor Desk assumes no responsibility for the durability, consistent coloration, or any other performance characteristic of a customer-specified laminate. **Please contact Customer Service regarding laminate lead times, special finish requirements, and pricing.**

Drawers

All drawers are constructed as a four-sided box, using finger joint dovetailing. This technique ensures superior structural integrity and easy drawer front replacement. Drawer fronts are attached to the four-sided box and have vertically matched veneer over the entire set, ensuring each pedestal has a consistent appearance. Seven-ply laminated Maple is used for all drawer sides. Maple veneered bottoms are 1/4" thick and grooved into drawers on all sides. Drawer interiors are UV-lacquered for a smooth, durable finish.

Drawer Hardware

Drawer and door hardware is standard with Paull Group and is available in several styles and finishes. A side-routed finger pull (shaped into solid lumber edges for maximum strength) is also available. Refer to page 6 for a complete description of drawer and door hardware.

Drawer Suspensions

File drawers utilize full extension, progressive action ball bearing suspensions. The full extension slides offer maximum filing capacity. Box drawers utilize ball bearing suspensions with full extension.

Filing Capabilities

All file drawers are equipped with extruded aluminum hardware that can be easily configured to accept either letter or legal size filing. All desk, return, and credenza pedestals are legal width (except pedestals on 60" wide desks, which are letter width).

Adjustable Glides

Polymer glides with a threaded metal stem and "T" nuts, which are set in solid lumber, allow a 1" adjustment to accommodate uneven floors. Proper leveling is essential to the alignment and function of doors and drawers. Improperly leveled units may result in misaligned doors and drawers and may impair locking mechanisms or other functional hardware.

Locks

Locks are standard on all desk pedestals and lateral file units. Locks are also available on other pedestals and storage units as an option. Lateral file locks utilize an anti-tilt device for user safety. Removable lock cylinders provide for keying alike or re-keying in the field, which offers flexibility and security even when users change. When ordering furniture, list product by office and tag accordingly. Failure to assign and tag may result in random key number assignments.

Standard Finishes

Taylor Desk features a high quality, catalyzed lacquer finish, resulting in a beautiful, semi-filled, satin sheen surface. Careful attention is paid to the staining and shading process, however, due to the inherent varied characteristics of wood, certain variations will occur, thus emphasizing the natural beauty of real wood. **The finish samples provided by Taylor Desk represent the average color of the finish. Finishes may vary due to variations in wood grain, texture, and density. Taylor Desk cannot accept responsibility for the finish to remain true over a period of time.** Standard Paull Group finishes are:

AMB	Amber on Maple	ESP	Espresso on Maple
CML	Clear Maple	MHL	Mahogany on Maple
CHY	Cherry on Maple	COL	Clear Oak on Maple
RCL	Royal Cherry on Maple	SMK	Smoke on Maple
LWL	Light Walnut on Maple		

When ordering additional product for an existing installation, please submit a finish sample (i.e., drawer front) with your order since aging and mellowing of wood finishes occurs over time.

Special Finishes

Taylor Desk products are available with special finishes to commercially match the color of existing woodwork, architectural details, or other special conditions. Taylor Desk, however, cannot match the unique grain pattern of a particular species of wood. Submit a finish sample to be matched to the Taylor Desk Customer Service Department. A counter sample will be developed and returned for approval. Production will begin upon receipt of written approval of the sample.

Special finish orders are not cancelable. A one time, per color formulation charge of \$200 net, plus an upcharge per order, will be determined based upon complexity of the finish. If special finish orders involve both Taylor Desk and Taylor Chair, both Customer Service Departments should be notified to ensure proper coordination. Once a special finish has been formulated, it will be assigned a special finish number. To avoid another formulation charge, please be sure to specify this special finish number on future orders. Orders for discontinued finishes will be treated as special finishes and are subject to all special finish charges.

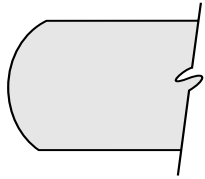

Finish Care and Protection

Taylor's catalyzed lacquer finishes should be maintained regularly by dusting with a soft, damp cloth. Polishing is not recommended more than 4-5 times per year and only with a high quality, non-silicone product. **Recommended products such as Murphy's Soap, Johnson's Pledge, or equivalents are formulated to contain degreasing agents, as well as cleaning additives that bring beauty to the wood.** Washing the wood with soap and water, all-purpose cleansers that contain bleach or ammonia, or with pure lemon oil is not recommended. These products will leave the finish lusterless and, in most cases, will cause harm to the finish.

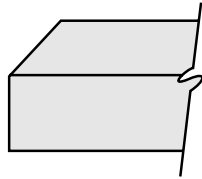

Fine wood furniture should not be exposed to strong sunlight, heat outlets, open windows, or dampness. These environments may cause premature fading or warpage. When spills occur, they should be blotted up as quickly as possible. Avoid placing damp objects and hot items on surfaces without coasters. Consideration should be given to the continued use of synthetic or plastic pads which may cause a reaction to the finish. Taylor Desk is not responsible for markings on any surface caused by any writing instrument, as well as sharp or abrasive objects.

EDGE DETAILS

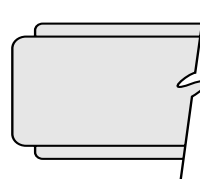

A selection of eleven distinct edge details are available on Paull Group worksurfaces and tops. Skillfully-crafted edge details are shaped into solid hard Maple lumber. To specify the edge detail selection, add the corresponding letter designation to the end of each model number.

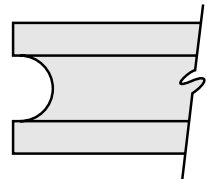

Arc (-AR)

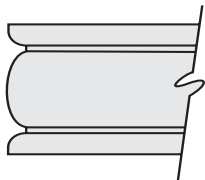

Bevel (-BV)

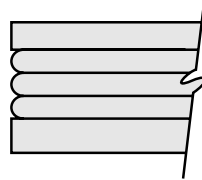

Classic (-CL)

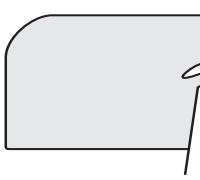

Cove (-CV)

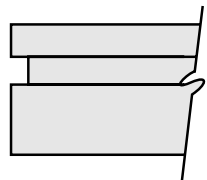

Ellipse (-EL)

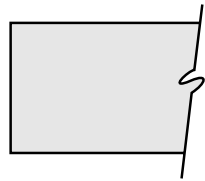

Fluted (-FL)

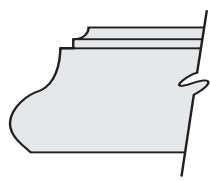

Radius (-RD)

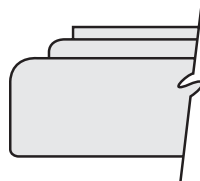

Reveal (-RE)

Square (-SQ)

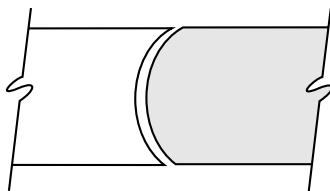

Traditional (-TD)

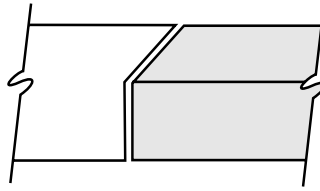

Transitional (-TR)

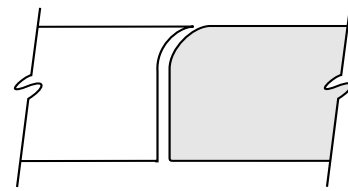

In some cases, inverse edge details are required to allow for flush mounting of returns, bridges, and other connecting components. The following inverse edge details will be included on adjacent worksurfaces, as required.

Transitional (-TR)

HARDWARE

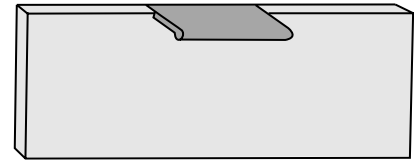

Drawer and door hardware is standard with Paull Group (a side-routed finger pull is also available in lieu of hardware). Hardware is offered in six different styles with several finishes listed below. Drawings at right indicate hardware position. Knobs are used on Overhead Storage Units, unless otherwise indicated. Specify hardware selection by adding its corresponding letter designation to the end of each model number.

BASE MOLDINGS

Solid Maple Base Moldings are available as an option with Paull Group. Two styles are offered: Capitol Base Molding (**CAP-BASE-**) and Century Base Molding (**CEN-BASE-**). Placement of base molding differs on each Paull Group component (see drawings below, **bold line** indicates base molding). Specify base molding selection by adding the style name to the corresponding letter designation listed below, then add to list price (i.e., **CAP-BASE-WARD** for Capitol Base Molding on a Wardrobe Unit).

PRICING AND PLACEMENT

Desks:

Recessed, Double Ped Desk (- RECESS-DBL)	\$550
Recessed, Single Ped Desk (- RECESS-SGL)	500
Flush, Double Ped Desk (- FLUSH-DBL)	525
Flush, Single Ped Desk (- FLUSH-SGL)	475
Step, Double Ped Desk (- STEP-DBL)	575
Step, Single Ped Desk (- STEP-SGL)	525

Credenzas:

72" and smaller (- CREDS)	475
Over 72" (- CREDL)	525

Returns:

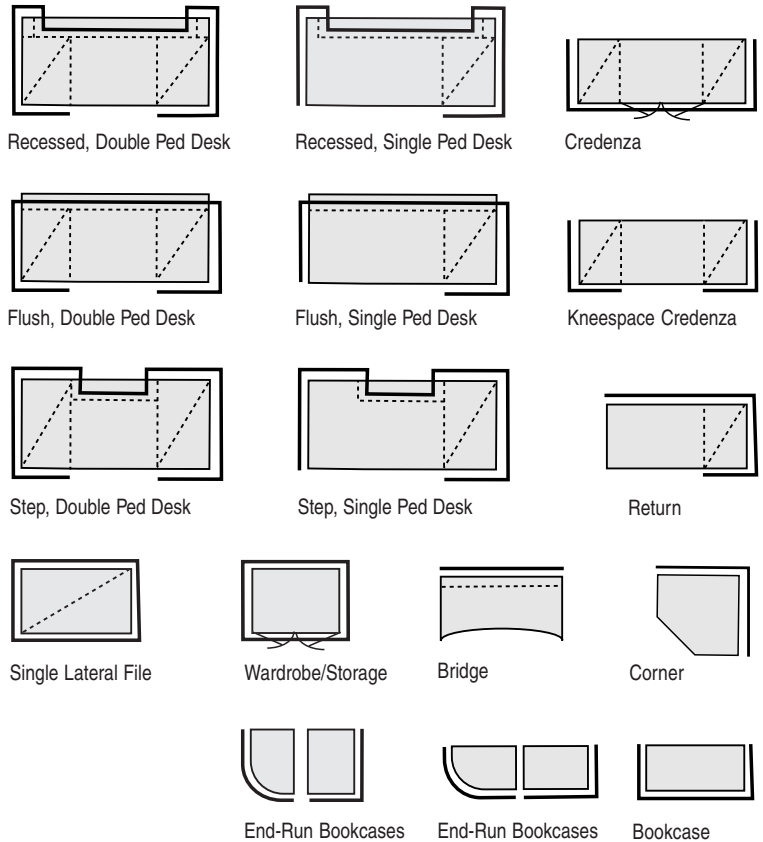

48" and smaller (- RETURNS)	395
Over 48" (- RETURNL)	425

Bridges:

36" and smaller (- BRIDGES)	215
Over 36" (- BRIDGEL)	250

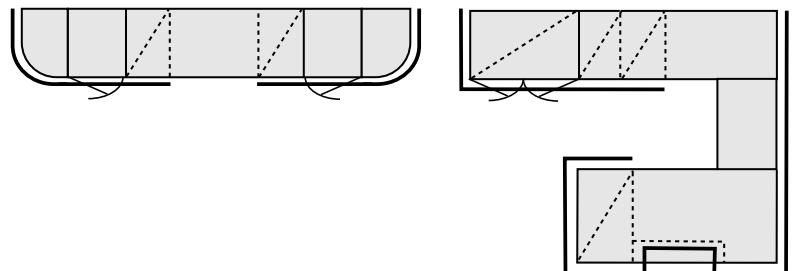

Miscellaneous:

Single Lateral File (- LAT)	315
Wardrobe/Storage (- WARD)	350

Square End-Run Bookcase (- SBC)	215
Quarter-Round End-Run Bookcase (- QBC)	250

WORKWALL PLACEMENT

In some cases, it is necessary to eliminate base molding so that units may sit side-by-side without interference from the base molding. When specifying Paull Group with base molding for workwalls or other modular configurations, a diagram MUST be included. Customer Service will determine and notify you of the most appropriate locations for base moldings.

TYPICAL CONFIGURATIONS

These Typical Configurations illustrate some of the many possibilities available from Paull Group. Larger color photographs of the following configurations can be found in the Paull Group product brochure. In order to focus on the furniture components, **there are no options or accessories listed.**

Step Front Double Pedestal Desk	PG3672BB-S	\$3790

POWER/DATA ACCESS AND WIRE MANAGEMENT

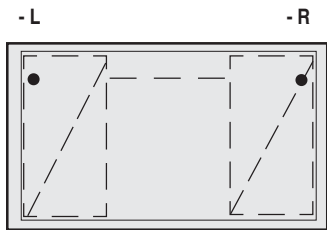

Taylor Desk offers a variety of power/data access and wire management options (see Techno-Components on page 11 for a complete listing). These components allow access to floor and wall electrical/data outlets, as well as manage wires from auxiliary lighting and electronic office equipment. NOTE: Electrical components are U.L. listed. Compliance with electrical and building codes are the sole responsibility of the customer.

1. Retractable Power/Data Center
2. Wire Management Channel
3. Double Wire Grommet
4. Single Wire Grommet
5. Single Wire Grommet (vertical)
6. Recessed Power/Data Center
7. Wire Access Panel

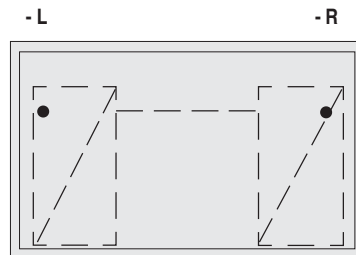

STANDARD GROMMET LOCATIONS

Standard grommet locations for worksurfaces and vertical modesty panels are shown below. When specifying a Wire Management Grommet, the grommet location must be included. Add the location suffix to the grommet model number (i.e., WG-1-KSC). See the grommet location key to the right. Wire management for Task Lights may be routed through the back panel of Overhead Storage Units directly behind the Task Light. To specify, add **-TLG** to the model number. Task Light wire can also be run behind Accoustical Tack Panels and through Worksurface Grommets, when specified.

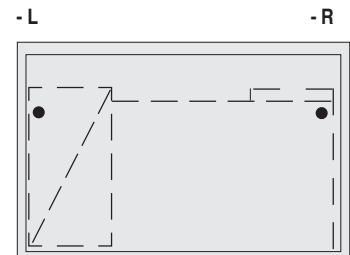

Location Key:	
- L	Left
- C	Center
- R	Right
- TLG	Task Light
- KSL	Kneespace Left
- KSC	Kneespace Center
- KSR	Kneespace Right
- VML	Vertical Modesty Left
- VMR	Vertical Modesty Right

Bridge Unit

Corner Unit

Vertical Panels

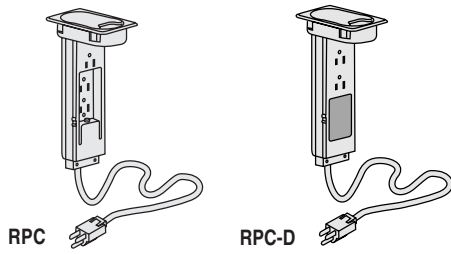

Grommets may also be specified for vertical modesty panels **in open kneespaces only**. Vertical Modesty Grommets will be positioned 3" below the worksurface. To specify, add **-VML** (Vertical Modesty Left) or **-VMR** (Vertical Modesty Right) to the model number.

Return, elevation view

TECHNO-COMPONENTS

Model # Dimensions List Price

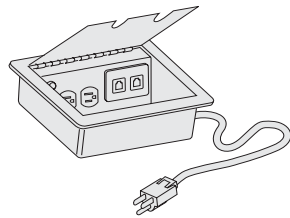

Retractable Power Center

Retractable Power Centers provide full access to electrical outlets at the worksurface by sliding up in a slotted track and then retracting to a concealed position. Centers are available in matte black and are equipped with 15 Amp circuit breaker and 6 ft. cord. U.L. and C.S.A. listed. Please submit a dimensioned drawing to specify position.

RPC	Four Electrical Outlets	\$240
RPC-D	Two Electrical Outlets and Slot for Voice and Data Modules*	220

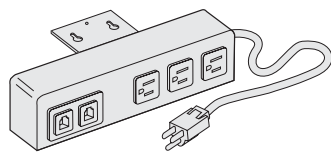

*Taylor Desk does not supply these modules. For information on ordering modules that best meet your requirements, please contact **AMP Product Information Center at 1-800-522-6752** or **Panduit at 1-800-777-3300**.

Recessed Power/Data Center

Recessed Power Centers provide full access to electrical and voice/data outlets at the worksurface. Centers are flush to the worksurface and are available in matte black. Each center is equipped with two electrical outlets, two voice/data outlets, 15 Amp circuit breaker, and 6 ft. cord. U.L. and C.S.A. listed. Please submit a dimensioned drawing to specify position.

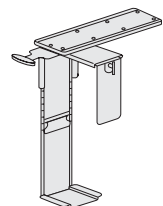

REC-PC	4 5/8" x 8 1/8"	380
---------------	-----------------	-----

Power Strip

Power Strips provide full access to electrical and voice/data outlets beneath the worksurface for front access. Each Power Strip is equipped with three electrical outlets, two voice/data outlets, 15 Amp circuit breaker, and 6 ft. cord. U.L. and C.S.A. listed. Power Strips may be field installed. For factory installation, please submit a dimensioned drawing to specify position.

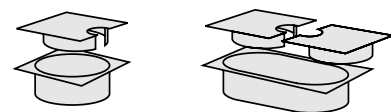

POW-STP	3" x 12" x 2 3/4" H	345
----------------	---------------------	-----

CPU Holder

CPU Holder stores the CPU vertically beneath the worksurface to protect against contaminants and saves workspace. Holder adjusts to support most CPU sizes and includes a track with 13" in/out adjustment range, 360° swivel for easy access to back panel, and an integrated handle to assist with the slide and swivel features. Matte black finish.

CPUH	17 3/4" D 3 1/4" - 8 1/2" W 13 1/2" - 24" H	375
-------------	---	-----

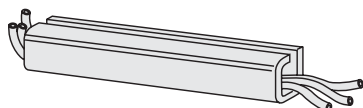

WG-1
WB-AB or WG-SN

WG-2

Wire Access Grommets are furnished with a matte black, satin nickel, or antique brass cap. Please specify grommet position, orders must be accompanied by a dimensioned drawing to insure correct locations.

WG-1	1 7/8" Diameter, Matte Black	80
WG-2	1 7/8" Diameter x 4 1/4" I.D., Matte Black	100
WG-SN	2 1/2" Diameter I.D., Satin Nickel	120

Task Light

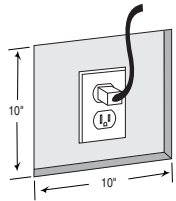

Adjustable Task Light

Task Light is mounted under overhead storage units and include 40W T12 cool white lamps with white reflector, 6 ft. cord, and center rocker switch. Black finish.

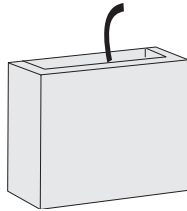

TL-27	2¾" x 7" x 27½"	\$175
TL-57	2¾" x 7" x 57½"	315

Adjustable Task Light has 18 watt CFL lamp that may be positioned anywhere along a 44" rail. Adjustable 15" long swing arm. Matte black finish.

ATL-27		415
---------------	--	-----

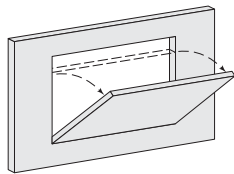

Wire Access Panel

Shown Closed

Wire Access Panels provide access to wall mounted power/data outlets through a 10" x 10" opening on credenza, return, or bridge modesties/back panels. Wires can still pass through when removable door panel is in place. Standard position is centered (left-to-right) in any open knee-space, while the bottom of the Wire Access Panel is 10" to the floor. To specify non-standard positions, orders must be accompanied by a dimensioned drawing.

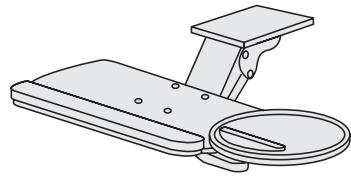

WAP-M	10" x 10" H	215
--------------	-------------	-----

Hinged Modesty for Wire Access

A hinged modesty panel allows wall access and may be specified for returns, bridges, or credenza knee-space areas 32" wide or longer. A wire management cut-out is provided with all hinged modesties.

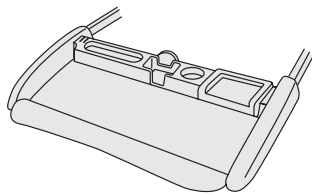

HM	18" x 26"	240
-----------	-----------	-----

Articulating Keyboard Tray with Articulating Mousepad

Articulating Keyboard Tray with Articulating Mousepad is mounted below the worksurface and adjusts from worksurface level to 6" below, 15° tilt and 360° rotations. Fully retractable to store with a minimum intrusion to knee-space. All adjustments lock to position. Swivel/tilting mousepad may be mounted on the right or left side. Both tray and mousepad include gel wrist rests. Matte black finish.

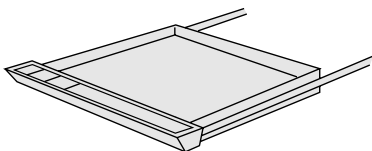

AK-MP2	Tray: 10¼" x 20" Mousepad: 9"W x 7½"D	470
---------------	--	-----

Pull-Out Keyboard Tray with Mousepad

Pull-Out Keyboard Tray with Mousepad. Tray tilts -7°, -3.5°, and neutral. Locks into three positions. Fully retractable to store with a minimum intrusion to knee-space. Tray includes gel wrist rest and several storage compartments for supplies. Mousepad may be positioned on the right or left side. Matte black finish.

PK2	9¼" x 25½" includes mousepad	395
------------	---------------------------------	-----

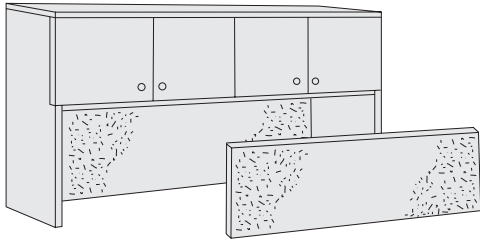

Center Drawer

Center Drawer is mounted below the worksurface of Double or Single Pedestal Desks, Table, Conferencing, or Run-Off Desks. Solid Maple drawer front, as well as storage compartments for supplies are included.

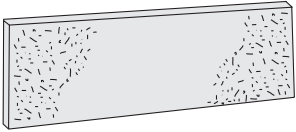

CD		250

WORKSPACE ACCESSORIES

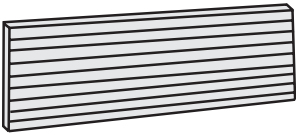

Fabric covered Acoustical Tack Panels are available for Top Units or for Wall Mount applications. Panels are covered with **Maharam Messenger (pattern #458640) Balsa (color #001)**. COM may also be specified, see fabric requirements listed below. Yardage requirements are based on 54" wide fabric. COM fabrics should be shipped to: **Taylor Desk 11020 Santa Fe Avenue, Lynwood, CA 90262** and clearly side marked with the customer name and purchase order number. Taylor Desk is not responsible for shipping errors made by the fabric company. Please indicate on your purchase order: the COM fabric company name, pattern name and number, and color name and number. To receive a memo sample of Messenger Balsa, please contact Maharam directly at **1.800.645.3943**. NOTE: For wall mount applications, specify **-WM** after the tack panel model number.

DESKS

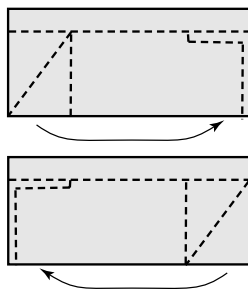

Paull Group offers three desk styles: Recessed Front, Flush Front, and Step Front, as well as two top shapes, rectangle and bow (available on Flush and Step only). Tops are shaped into one of eleven edge details and hardware is standard on all desks (see pages 5-6 for a complete description of edges and hardware). For further flexibility, there are six modesty options to choose from for Step Front Desks (see page 16).

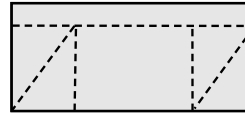

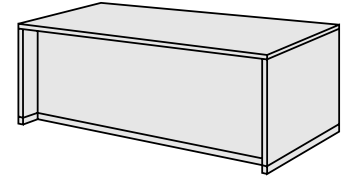

A wide selection of Table Desks and Conferencing Desks are also offered in Paull Group. Table Desks tops are available in four top shapes: Arc End, Bow Top, Rectangle, and Round, as well as three leg styles: tapered wood with metal trim, flaired metal, and black metal column. All desks styles will accept center drawers and wire management grommets and channels (see pages 10-12 for a complete description and pricing).

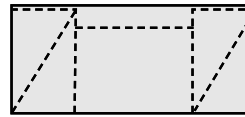

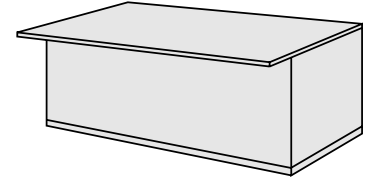

Double or Single Pedestal Desks are available in several sizes and offered in Box|Box|File or File|File combinations. Pedestals are legal width (except pedestals on 60" wide desks, which are letter width) and are standard with locks in the kneespace. Single Pedestal Desks are reconfigurable in the field where the pedestal can be switched from right to left to accommodate changing needs.

P-Top Conferencing Desk

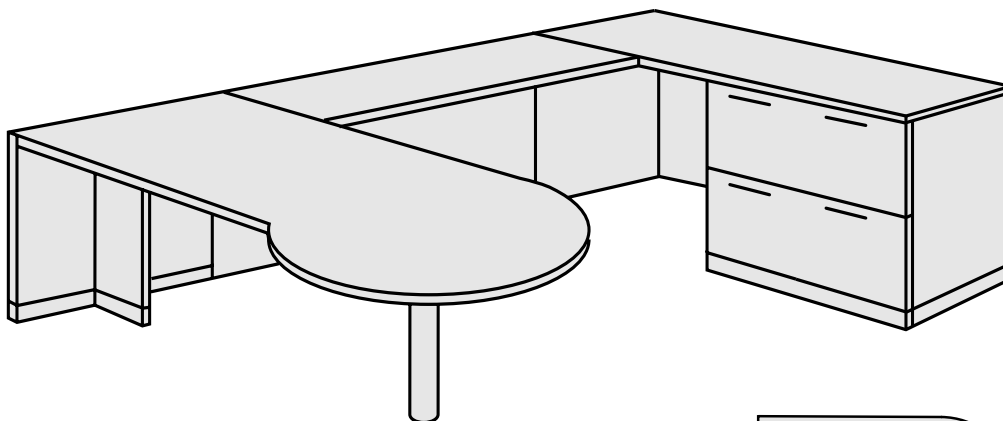

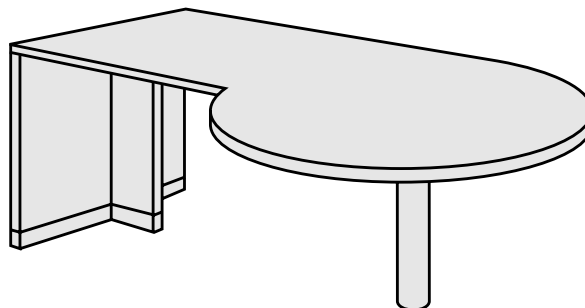

Arc End Table Desk with Tapered Wood Leg and Metal Trim

DESKS - CONFERRING AND RUN-OFF

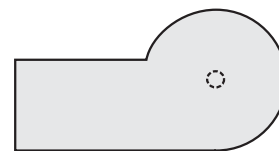

Paull Group's Conferencing and Run-Off Desks provide an alternative to the standard single or double pedestal desk. With several top shapes and leg styles to choose from, as well as a selection modesty panels (see page 16), Conferencing and Run-Off Desks can be incorporated into a variety of office environments.

Conferencing Desks are free-standing units supported by an end panel and leg and designed to accept any return or bridge unit. Conferencing Desks must be specified from right or left from user side. Run-Off Desks must attach to the kneespace of a credenza and be specified as a right or left extension from the credenza. All the necessary hardware for attachment is included for both Conferencing and Run-Off Desks. An optional center drawer may be added to any style, see page 12 for a complete description and pricing.

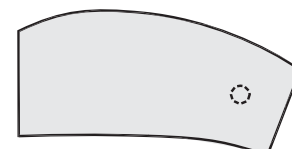

Bullet

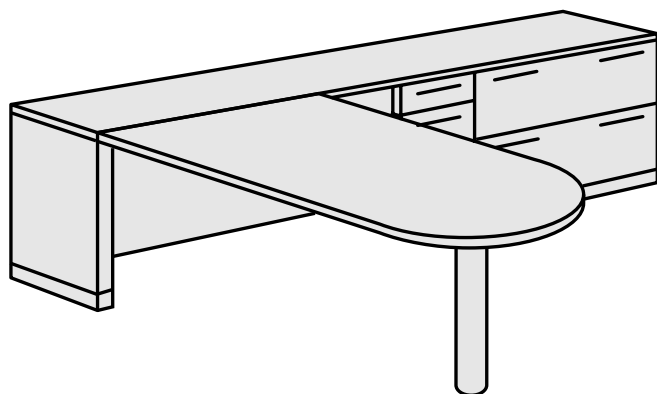

P-Top

Arc End

Sailfin

Four top shapes are available with Paull Group Conferencing and Run-Off Desks: Bullet, Arc End, P-Top, and Sailfin. Bullet and Arc End Desks are non-handed, allowing the flexibility for left and right configurations, while P-Top and Sailfin Desks are handed.

Conferencing and Run-Off Desks offer three leg styles: tapered wood leg with metal trim, wood column, and black metal column. Both the tapered wood leg and wood column leg are finished to match the desk top.

Tapered Wood Leg
with Metal Trim

Wood Column Leg
(6" diameter)

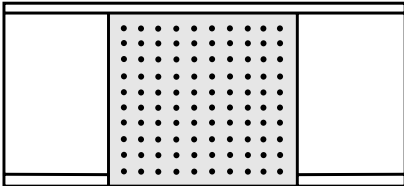

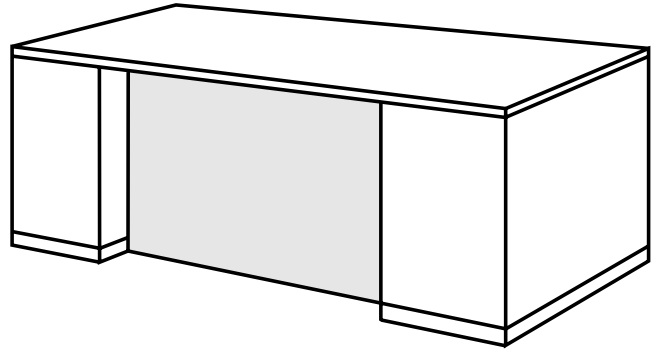

Black Metal Column Leg
(6" diameter)

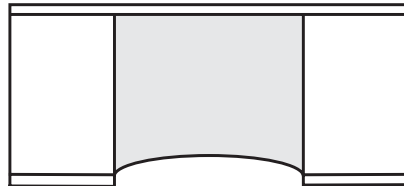

MODESTY PANELS

Step Front Desks and Reception Stations can be punctuated with one of six modesty panel options. The standard modesty is a full panel consisting of Maple veneer laid up onto substrate by Taylor Desk craftsmen. Optional modesty panels include: Perforated Metal, Full Metal, Open Metal, Perforated Wood, Arched Wood, and Open Wood.

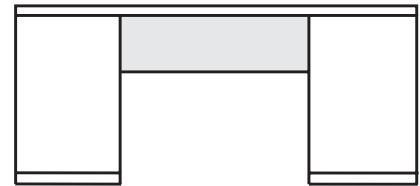

The Perforated Metal Modesty consists of an anodized aluminum surfaced panel with a stainless brush finish. The distinct perforation pattern creates a different look to the metal panel, as well as the wood panel. The Arched Modesty has a subtle curve cut out from the base of a full panel.

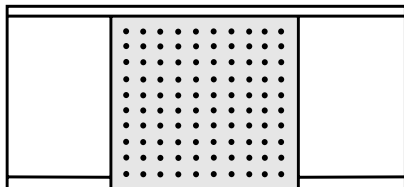

Perforated Wood
Center Modesty Panel on Step Front Desks and Reception Desks, Conferencing Desks

Arched Wood

Full Metal
Center Modesty Panel on Step Front Desks and Reception Desks, Conferencing Desks

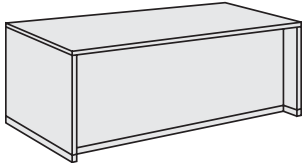

Open Metal
Center Modesty Panel on Step Front Desks

Closed Modesty Panels can also be used on free-standing Conferencing Desks that are specified with a Wood or Black Metal Column Leg. Modesties available are: Wood, Perforated Wood, and Perforated Metal. Closed Modesties are not available on those Conferencing Desks that incorporate a Tapered Wood Leg with Metal Trim.

Modular Returns are reconfigurable in the field, allowing the pedestal positions to be changed for further flexibility. To specify a Modular Return, select from the available worksurfaces, modesties, and components listed below. Return Units must be specified as a left or right return (as you are sitting at the desk), then specify the components in the unit, left to right. All units are assembled at the factory and shipped as one unit, unless otherwise specified. All components and kneespace areas have finished backs. **All BBF and FF pedestals specified for returns are legal width.** To ensure proper configuration and connecting hardware, a diagram should be included when specifying Modular Returns.

For non-standard length returns, refer to the next larger size, then add \$210 to the list price for the cut down charge.

CREDENZAS

Credenzas are available in a variety of preconfigured arrangements or as Modular Credenzas with several filing and storage components to choose from.

All BBF and FF pedestals specified for credenzas are legal width. When specifying credenzas for a U-shaped configuration, always include an open kneespace at the location where the bridge will meet the credenza. An open kneespace is also required to attach Run-Off Desks. All necessary hardware for attachment is included.

Credenzas with a kneespace will accept Articulating and Pull-Out Keyboard Trays, wire management grommets and channels (see pages 10-12 for a complete description and pricing). Optional locks are also available on all credenza pedestals.

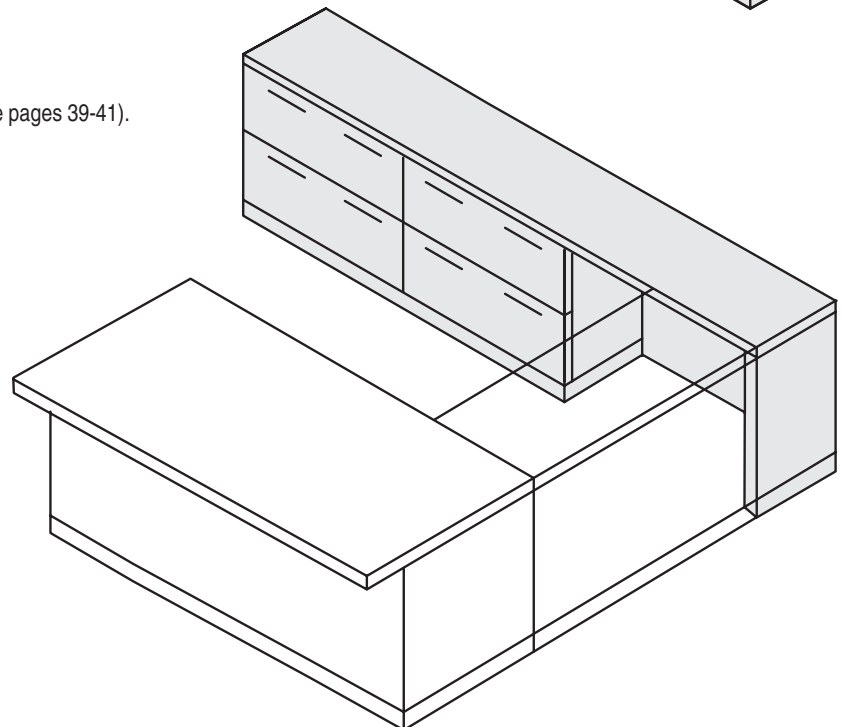

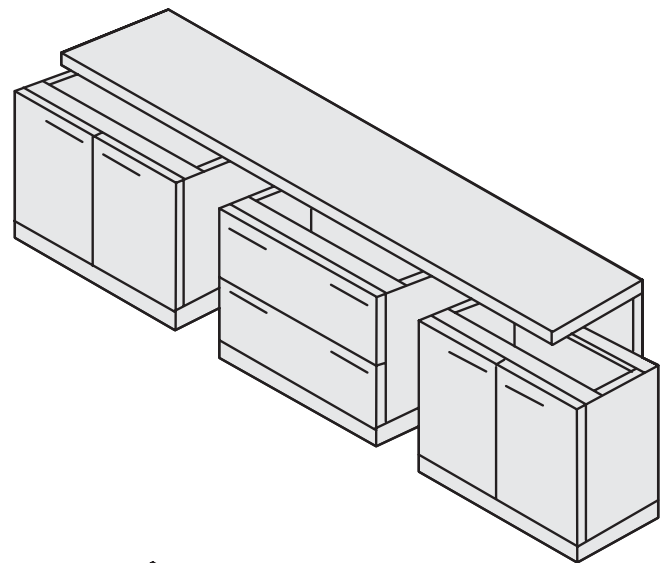

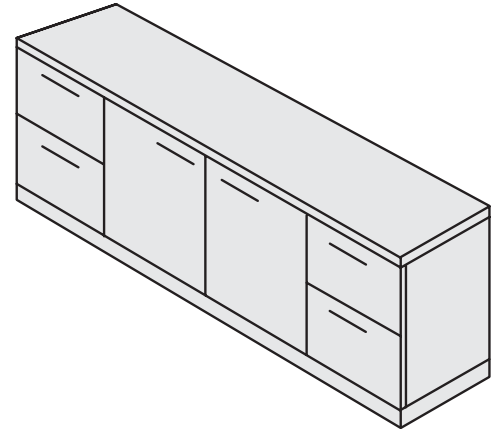

Modular Credenzas and Components

Modular Credenzas are reconfigurable in the field, allowing the pedestal positions to be changed for further flexibility. To specify a Modular Credenza, select the components listed on page 38 then specify the unit, left to right. All units are assembled at the factory and shipped as one unit, unless otherwise specified.

When a Modular Credenza is used in a U-shape configuration, an End Panel (**PGSEP**) must be specified with the open kneespace. In addition, a Support Panel (**PGSU**) must be used when there is an open kneespace span of 60" or more. All components and kneespace areas have finished backs. To ensure proper configuration and connecting hardware, a diagram should be included when specifying Modular Credenzas.

Preconfigured Credenzas

Preconfigured Credenzas are available in several variations (see pages 39-41). They are **NOT** reconfigurable in the field.

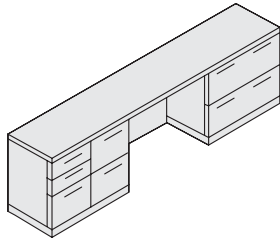

MODULAR CREDENZAS | COMPONENTS

To specify, include:

- Model Number
- Wood Finish
- Edge Detail
- Hardware Style
- Hardware Finish
- List components left to right

Buffet Serving | Storage Credenza

OVERHEAD STORAGE | TOP UNITS

Top Units provide overhead storage behind hinged doors. Units rest on top of any Credenza of corresponding length or may span over several units (i.e., desk, bridge, and corner unit in U-shape configuration).

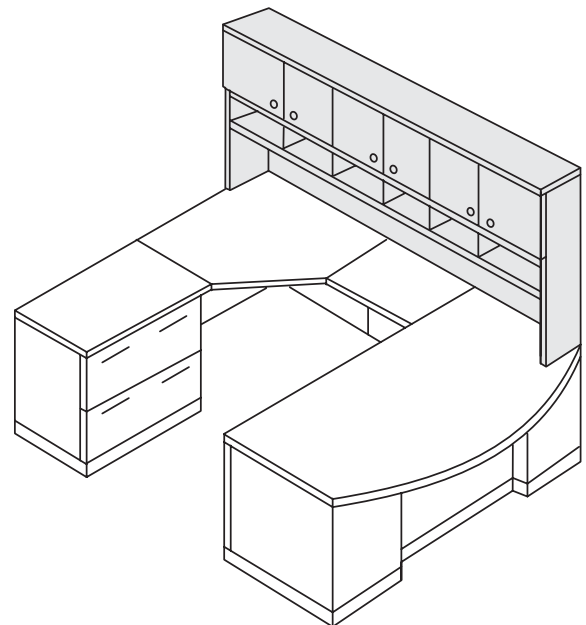

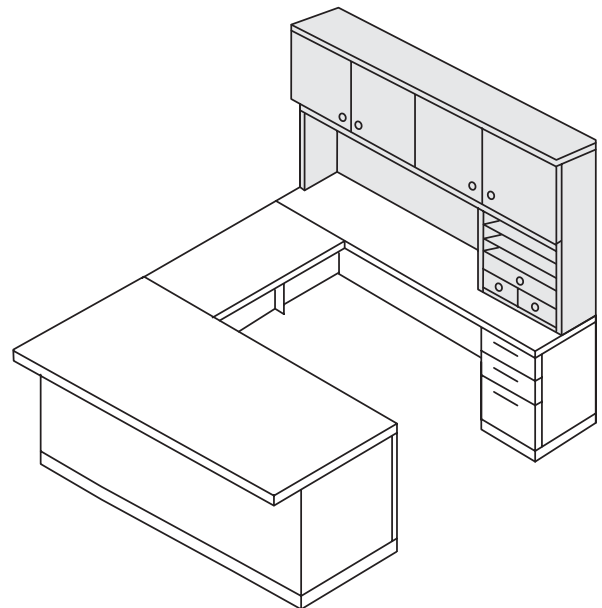

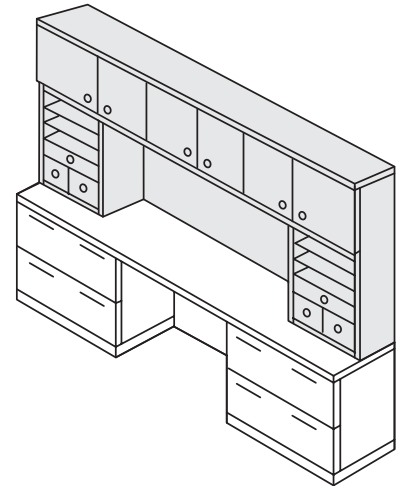

Top Units are available in several lengths to accommodate most combinations of lower unit sizes. All Top Units include European-style, self-closing hinges for each door that are fully adjustable for proper door alignment. Top Units are also available without the doors for open storage, please specify. All units ship fully assembled from the factory.

Additional storage can be achieved through the specification of Top Units with paper management shelves ("TPM" version) and/or the incorporation of Paper Management Organizers.

Paper Management Organizers are permanently mounted into Top Units. They are offered with several storage options and two sizes (one size to fit under a regular Top Unit and another size to fit under the "TPM" Top Unit version). Storage options include: open shelving, letter tray drawers, and CD storage drawers. Please specify right or left position when ordering a single organizer. **Two organizers will automatically be positioned at each end, unless otherwise specified.**

Top Units are also available with optional Acoustical Tack Panels and Accessory Walls. Tack Panels are covered in a specified fabric and Accessory Walls consist of an extruded, black, plastic slatwall. When used in conjunction with Organizing Elements, Accessory Walls provide added workspace through paper management and easy-to-access storage for desktop items (see Workspace Accessories on page 13 for complete information and pricing on Tack Panels and Accessory Walls).

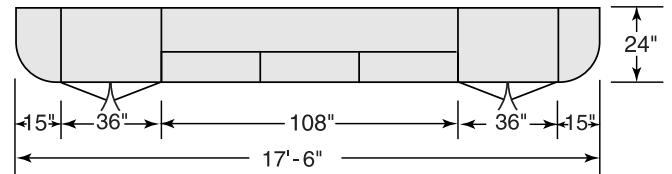

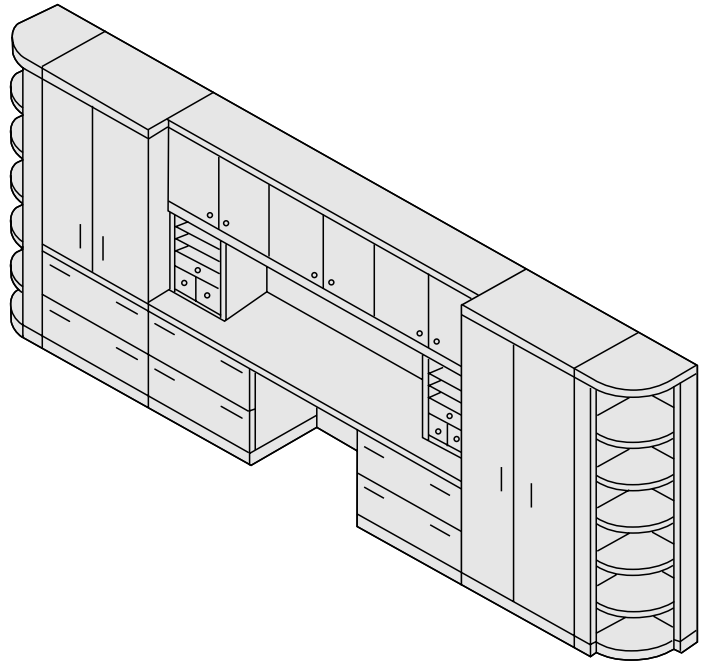

Optional locks are available on all hinged doors. In addition, a valance below the hinged doors enables the placement of an optional Task Light (see Workspace Accessories on page 12 for complete information and pricing).

WORKWALLS AND STORAGE | OVERVIEW

Multiple storage units may be combined to form continuous workwalls. These workwalls may function in the rear of a U-shape configuration, on the side with a Run-Off Desk, or as a "stand-alone" workwall for auxiliary storage.

Paull Group offers several component options to create the specific built-in appearance. They include: End-Run Bookcases, single and full size Storage Units, Top Units, Credenzas, Pediments, and Paper Management Organizers. Each component is available in several different sizes, pedestal options, and styles, resulting in endless workwall possibilities.

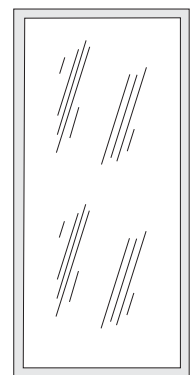

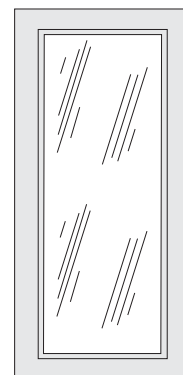

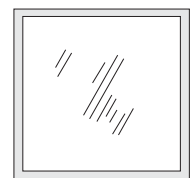

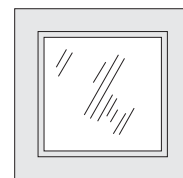

WORKWALLS AND STORAGE | DOOR OPTIONS

Standard doors on Top Units and Storage Units are a flat, wood panel. Wood-framed doors with frosted glass, as well as aluminum-framed doors with frosted glass are also available.

Storage Units and Storage Towers are available with optional glass shelves when using either the frosted glass door option. Optional interior cabinet lighting is available for overhead storage units specified with glass doors. Glass shelves are recommended when using interior cabinet lighting.

Pricing for optional glass doors, glass shelves, and interior cabinet lighting can be found on product pages 45-48.

Wood-Framed Doors with Frosted Glass

Aluminum-Framed Doors with Frosted Glass

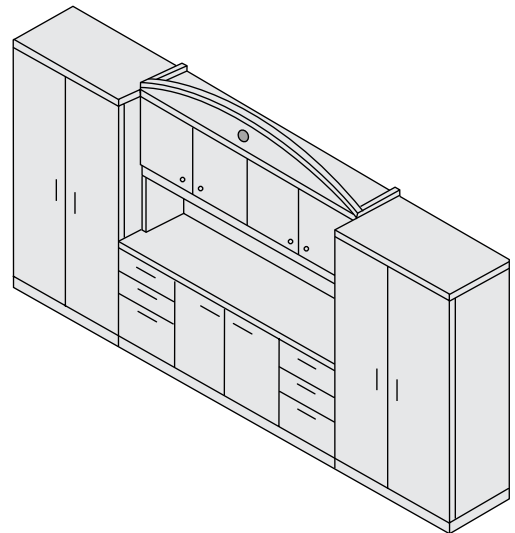

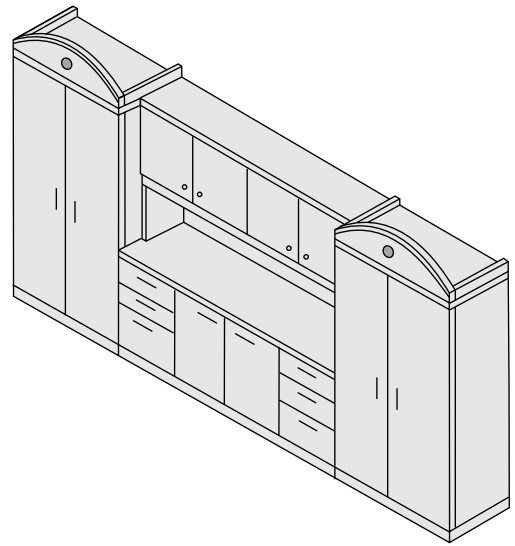

WORKWALLS AND STORAGE | PEDIMENTS & END-RUN BOOKCASES

The overall style of a workwall can be enhanced with the addition of Pediments and End-Run Bookcases. Pediments are available in two styles, Gabled and Arched, and may be used with any Top Unit or 36"W Storage Unit.

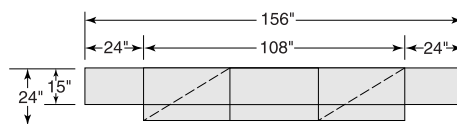

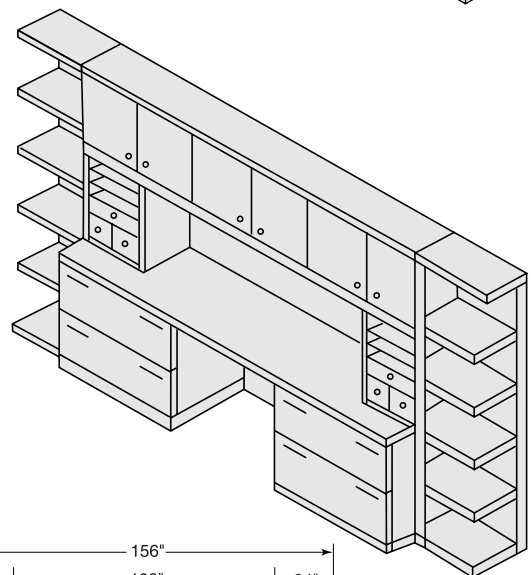

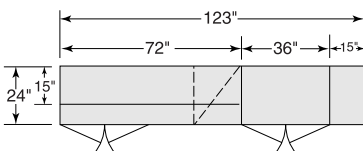

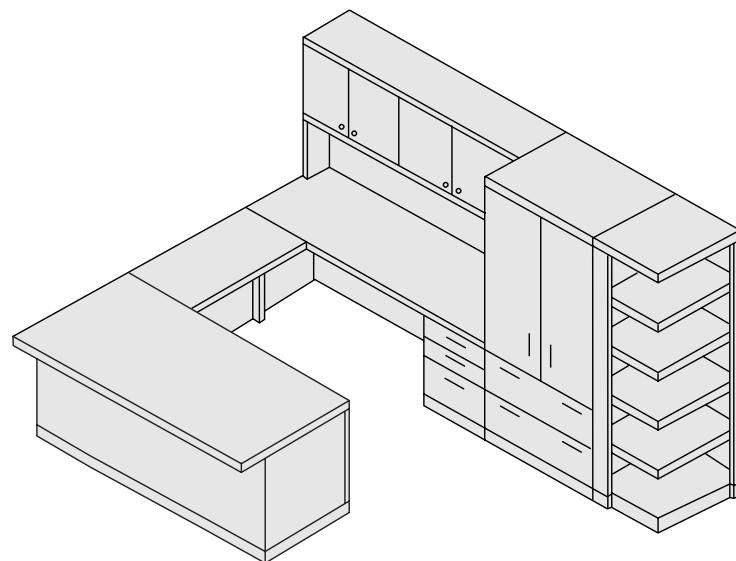

End-Run Bookcases can be positioned at either or both ends of a workwall. They are offered in two styles: Square and Quarter Round. End-Run Bookcases are designed to be placed flush against 72"H components with corresponding **depths**. All bookcases include heavy duty 1" shelves.

To specify for flush placement of End-Run Bookcases, select the appropriate bookcase according to depth. For example, if an End-Run Bookcase is positioned next to a 24"D Storage Unit, then 24"D bookcase should be specified. Or, if an End-Run Bookcase is positioned next to a 15"D Top Unit, then a 15"D bookcase should be specified. In addition, please indicate left (-LEFT) or right (-RIGHT) position.

Quarter-Round End-Run Bookcases are also available in a 29"H version for flush placement against other 29"H units (i.e., desks, returns, and credenzas).

NOTE: A kneespace credenza must be specified to incorporate a workwall into a U-shape or side wall configuration.

OVERHEAD STORAGE | TOP UNITS (15"D)

*NOTE: Pricing for Tack Panels is based on the standard fabric (Maharam, Messenger-Balsa) or COM. Accessory Walls also may be used in lieu of Tack Panels. See page 13 for more information.

The Reception Station is enclosed by 42"H panels and features a 15"D transaction shelf. L-Shape and U-Shape Configurations are available. L-Shape configurations **must be specified left or right return**. Two styles of Reception Stations are available: Recessed Front and Step Front. The center modesty panel on the Step Front Reception Station can be specified with the standard, all-wood panel, or the optional full metal, perforated wood, or perforated metal (see page 16 for a complete description).

Rectangular transaction tops are standard on the desk front; however, optional wrap-around transaction tops may be specified for the side(s) of the unit. In addition, optional bow-shaped transaction tops are available. A 1/2" floating glass top is offered in both shapes. Floating glass tops are raised above the wood transaction top by satin nickel stand-offs.

NOTE: For custom requirements, please submit drawings and specifications for a factory quote.
