

TRIAX SERIES

The Triax Series, designed by Robert/Bernard Associates, incorporates crisp details and flexible modularity that addresses both contemporary and transitional environments. The combination of Anigré veneers and Maple solids provide a strong design statement, as well as elegant durability. Six Taylor finishes allow Triax to complement any interior specification.

Veneers

Hand selected, book-matched, Anigré veneer is meticulously prepared and laid up onto the highest quality substrate in Taylor Desk's own Panel Department. All panels are produced using three-ply balanced construction to discourage warping.

Tops

All Triax tops are constructed using a three-ply balanced construction. The 1" thick Anigré veneered tops are edged with solid White Maple, which is beveled to form the distinctive Triax design.

End Panels and Modesty Panels

End Panels are manufactured with 1¼" thick three-ply balanced construction and solid lumber bottom strips, which provide a strong base for the adjustable leveling glides. All desk modesty and credenza backs are ¾" thick, balanced construction, full height panels with meticulously book matched veneers.

Drawers

All drawers are constructed as a four-sided box, using finger joint dovetailing. This technique ensures superior structural integrity and easy drawer front replacement. Drawer fronts are attached to the four-sided box and have vertically matched veneer over the entire set, ensuring each pedestal has a consistent appearance.

Each drawer front is individually banded with solid Maple that is shaped to complement the overall Triax style. Seven-ply laminated Maple is used for all drawer sides. Maple veneered bottoms are ¼" thick and grooved into drawers on all sides. Drawer interiors are UV-lacquered for a smooth, durable finish.

Drawer Hardware

Exclusively designed Triax hardware is standard in solid cast metal with a matte black, baked epoxy coat, which provides an elegant look and many years of flawless service.

Drawer Suspensions

File drawers utilize full extension, progressive action ball bearing Accuride® suspensions. The full extension slides offer maximum filing capacity. Box drawers utilize ball bearing Accuride® suspensions with ¾ extension.

Filing Capabilities

All Triax drawers are legal width. All file drawers are equipped with extruded aluminum hardware that can be easily configured to accept either letter or legal size filing.

Locks

Locks are standard on all desk pedestals and lateral file units. Locks are also available on other pedestals and storage units as an option. Lateral file locks utilize an anti-tilt device for user safety. Removable lock cylinders provide for keying alike or re-keying in the field, which offers flexibility and security even when users change. When ordering furniture, list product by office and tag accordingly. Failure to assign and tag may result in random key number assignments.

Adjustable Glides

Polymer glides with a threaded metal stem and "T" nuts, which are set in solid lumber, allow a 1" adjustment to accommodate uneven floors. Proper leveling is essential to the alignment and function of doors and drawers. Improperly leveled units may result in misaligned doors and drawers and may impair locking mechanisms or other functional hardware.

Standard Finishes

Taylor Desk features a high quality, catalyzed lacquer finish, resulting in a beautiful satin sheen surface. Triax Series is standard with a semi-filled finish. Careful attention is paid to the staining and shading process, however, due to the inherent varied characteristics of wood, certain variations will occur, thus emphasizing the natural beauty of real wood. **The finish samples provided by Taylor Desk represent the average color of the finish. Finishes may vary due to variations in wood grain, texture, and density. Taylor Desk cannot accept responsibility for the finish to remain true over a period of time.** Standard Triax Series finishes are:

CLA	Clear on Anigré	LWL	Light Walnut on Anigré
COA	Cherry on Anigré	MHL	Mahogany on Anigré
AMB	Amber on Anigré	ESP	Espresso on Anigré
RCL	Royal Cherry on Anigré	SMK	Smoke on Anigré

When ordering additional product for an existing installation, please submit a finish sample (i.e., drawer front) with your order since aging and mellowing of wood finishes occurs over time.

Special Finishes

Taylor Desk products are available with special finishes to commercially match the color of existing woodwork, architectural details, or other special conditions. Taylor Desk, however, cannot match the unique grain pattern of a particular species of wood. Submit a finish sample to be matched to the Taylor Desk Customer Service Department. A counter sample will be developed and returned for approval. Production will begin upon receipt of written approval of the sample.

Special finish orders are not cancelable. A one time, per color formulation charge of \$200 net, plus an upcharge per order, will be determined based upon complexity of the finish. If special finish orders involve both Taylor Desk and Taylor Chair, both Customer Service Departments should be notified to ensure proper coordination. Orders for discontinued finishes will be treated as special finishes and are subject to all special finish charges. Once a special finish has been formulated, it will be assigned a special finish number. To avoid another formulation charge, please be sure to specify this special finish number on future orders.

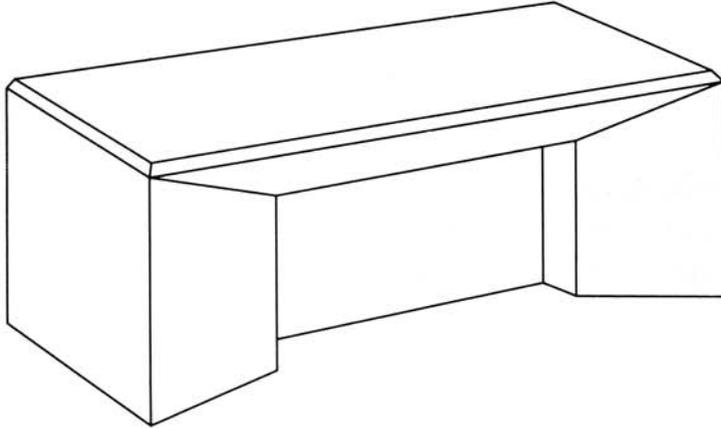

Finish Care and Protection

Taylor's catalyzed lacquer finishes should be maintained regularly by dusting with a soft, damp cloth. Polishing is not recommended more than 4-5 times per year and only with a high quality, non-silicone product.

Fine wood furniture should not be exposed to strong sunlight, heat outlets, open windows, or dampness. These environments may cause premature fading or warpage. When spills occur, they should be blotted up as quickly as possible. Avoid placing damp objects and hot items on surfaces without coasters. Consideration should be given to the use of synthetic or plastic pads which may cause a reaction to the finish. Taylor Desk is not responsible for markings on any surface caused by any writing instrument, as well as sharp or abrasive objects.

DESKS

Double and Single Pedestal Desks are available with a Closed or Open front modesty panel. All pedestals are legal width, file drawers accommodate letter and/or legal size filing. Locks are standard in all desk pedestals, accessed in the kneespace. A center drawer is standard on both double and single pedestal desks. The center drawer front is fully integrated into the desk top design. Single Pedestal Desks feature a storage cabinet in the open corner and should be specified either right or left sitting.

Lateral File Executive Height Return, single lateral file, locks included. Please specify right or left sitting.

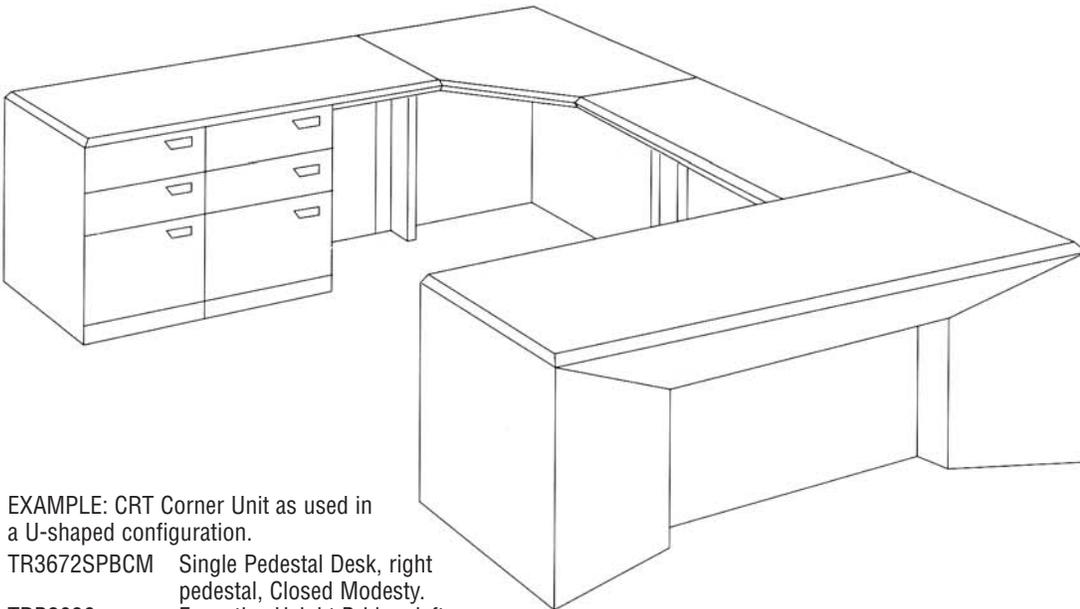

CRT CORNER UNIT

The CRT Corner Unit must be used in conjunction with return or bridge units. Standard in executive height, also available in secretarial height. To ensure proper configurations, please include a diagram with order. All the necessary hardware for attachment is included. Will accept optional articulating keyboard tray or pull-out keyboard drawer and wire grommets. Please order optional accessories separately.

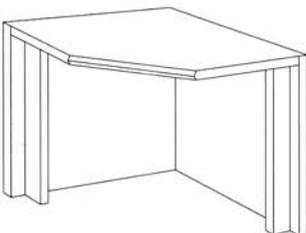

EXAMPLE: CRT Corner Unit as used in a L-shape work station configuration.

- TR2060ERL Lateral File Executive Height Return, right.
- TR3636CU CRT Corner Unit.
- TR2042ERB Executive Height Return Unit, left.
- AK Articulating Keyboard Tray.

EXAMPLE: CRT Corner Unit as used in a U-shaped configuration.

- TR3672SPBCM Single Pedestal Desk, right pedestal, Closed Modesty.
- TRB2036 Executive Height Bridge, left.
- TR3636CU CRT Corner Unit.
- TR2060ERBB Two Pedestal Executive Height Return, left.

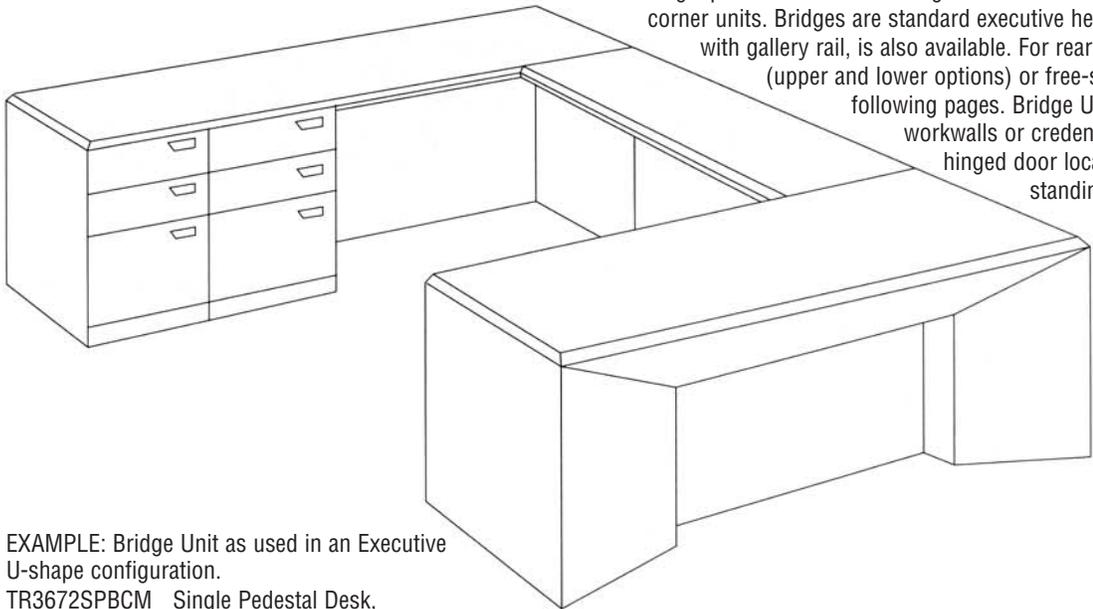

Model Number	Dimensions	Shipping Weight	List Price
TR3636CU	36" x 36" x 30"H. To accommodate 20" bridge or return units.	100 Lbs.	\$1250
TR4242CU	42" x 42" x 30"H. To accommodate 24" bridge or return units.	125 Lbs.	1450

CRT Corner Unit, executive height standard, secretarial height is available. Will accommodate bridge or return units only.

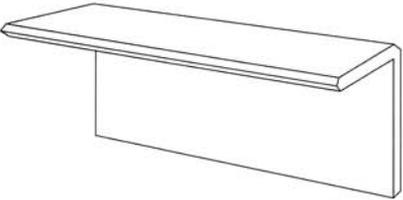

BRIDGE UNITS

Bridge Units are used for U-shape configurations to join free-standing single pedestal or conferencing desks and workwalls, credenzas, or CRT corner units. Bridges are standard executive height. Secretarial height, with gallery rail, is also available. For rear units, select Workwall (upper and lower options) or free-standing credenzas from the following pages. Bridge Units may NOT attach to workwalls or credenzas at a drawer pedestal or hinged door location. Workwalls and free-standing credenzas are available with kneespace at either end to accept bridge units. To ensure proper configuration and connecting hardware, a diagram should be included when specifying modular arrangements.

EXAMPLE: Bridge Unit as used in an Executive U-shape configuration.
 TR3672SPBCM Single Pedestal Desk, pedestal right, closed modesty.
 TRB2048 Executive Height Bridge, left.
 TR2072BBKS Two Pedestal Credenza, pedestals left.

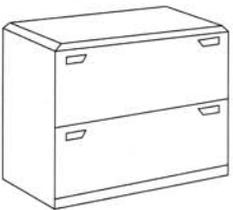

Model Number	Dimensions	Shipping Weight	List Price
TRB2036	20" x 36" x 30"H.	48 Lbs.	\$950
TRB2042	20" x 42" x 30"H.	52 Lbs.	1050
TRB2048	20" x 48" x 30"H.	55 Lbs.	1150
TRB2442	24" x 42" x 30"H.	53 Lbs.	1095
TRB2448	24" x 48" x 30"H.	60 Lbs.	1195

Bridge Unit, full modesty. Please specify right or left sitting.

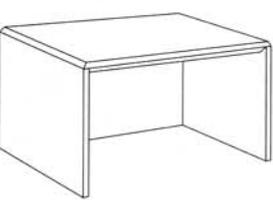

For non-standard height bridges, refer to the next larger size, then add \$175 to the list price.

TR2036L	20" x 36 ¹ / ₂ " x 30"H.	120 Lbs.	2280
---------	--	----------	------

CRT Table, executive height.

Printer Stand

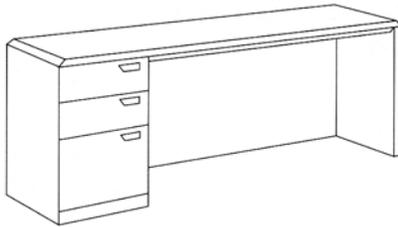

CREDENZAS

Credenzas are available in a variety of drawer pedestal, storage, and kneespace arrangements. Credenzas feature finished, full back panels. Drawer pedestals are legal-width and file drawers accommodate letter and/or legal size filing. Single and Two Pedestal Credenzas are available with pedestals either right or left facing. Only Single or Two Pedestal Credenzas may be used in conjunction with a bridge unit for U-shape configurations. An optional articulating keyboard tray or pull-out keyboard drawer may be fitted in any credenza kneespace.

 Optional locks available at \$70 per pedestal.

WORKWALLS AND STORAGE UNITS

Workwalls are free-standing units and may be used individually, grouped side-by-side, or combined with Bridges or Run-Off Desks to form modular configurations. All units have finished backs and may stand away from the wall. Workwalls are offered in a wide variety of drawer and storage configurations. **Workwalls must be specified by their individual upper and lower configuration model numbers. Lower Units can not be used alone.** The overall height is 76". Workwalls are fully assembled at the factory and shipped in two sections. To ensure proper configuration and connecting hardware, a diagram should be included when specifying workwalls and storage units. Acoustical tack panels, task lights, and grommets are available as options.

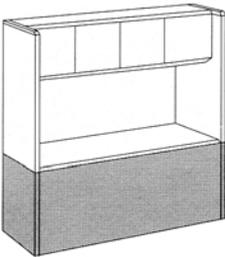

EXAMPLE:
